

How to get Sandale Saddlery Horse Bits

Sandale Saddlery is a family owned and run horse equipment and supply business.

Written By: Steph Langbecker

INTRODUCTION

Sandale Saddlery is a family owned and run horse equipment and supply business. Since 1976, from their base on Queensland's beautiful Sunshine Coast, they have been supplying a huge range of needs to equestrian sports and activities, including saddles, horse rugs and horse bits.

The team at Sandale Saddlery don't just love their work. They live it. Out of hours, you'll find their staff either riding and competing, or somewhere close to the equine action.

So you know that their advice and product knowledge on all your horse needs is coming from someone who knows. Service is, and always has been their number 1 priority. It is the main reason they are open 7 days a week, so that their customers know that if something is needed urgently, be it vet supplies, a rug to replace the one that got trashed overnight, electric fencing, they are always there.

They understand that for quite a lot of people, Sunday is the only time they have to shop. They also understand that often customers need someone to talk to about problems with their horses, and about equine products. It is not just a case of just clicking on a product and have it arrive in the mail. It is important to have an understanding of the products and their use and to be able to discuss with people who understand and use these products on a daily basis.

Therefore be it with a click of the mouse, or a one to one chat, we look forward to serving you.
