Step 1 — How to identify a blue screen of death
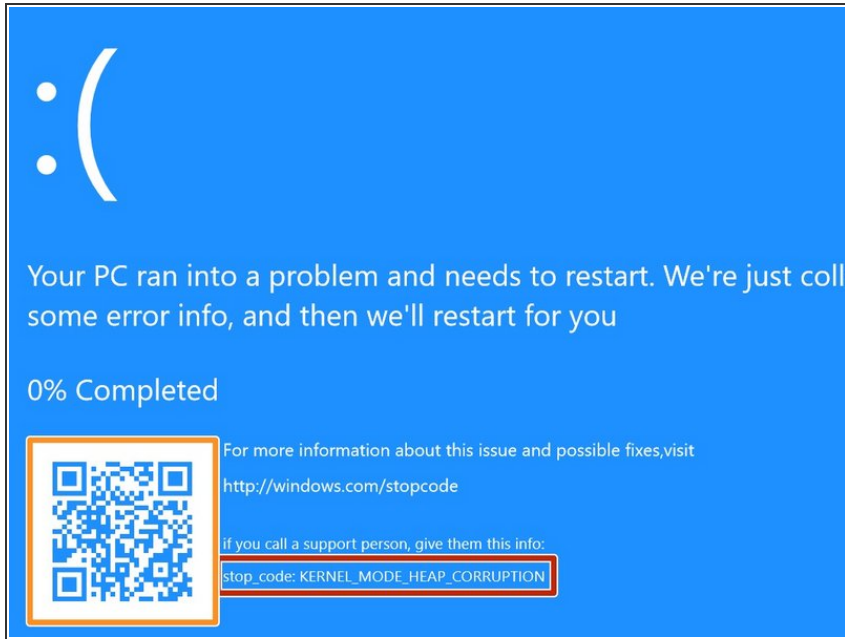

- (i) There are many different things that can cause a BSOD

- For this identification guide, you will be needing the StopCode

- using this error, you can go to the [BSOD troubleshooting on Microsoft's site](#)and find out what your issue is.

- Or, you could scan the QR code given, and it will bring up the support page for that error.

To reassemble your device, follow these instructions in reverse order.
