

# How to replace the extension handle on my trolley?

Follow this guide to replace the extension handle on your trolley.

Written By: VAUDE Reparaturteam

## INTRODUCTION

You can use these instructions for almost all VAUDE trolleys and replace the handle yourself. For our models Futuna, Rotuma, Turin and Tuvana, however, we recommend you ask a repair specialists at VAUDE to do the replacement.

### TOOLS:

- [Phillips #2 Screwdriver](#) (1)

### PARTS:

- [VAUDE Trolley Handle](#) (1)

## Step 1 — Trolley handle

- Open the zip inside the trolley to expose the handle.

## Step 2

- Unscrew the two screws in the lower section on the handle assembly using a Phillips screwdriver.

### Step 3

- Using a Phillips screwdriver, unscrew the 6 marked screws attaching the handle to the upper section.

### Step 4

- After unscrewing all screws, it is easy to remove the entire handle assembly.

Follow the instructions in reverse order, to complete the repair/replacement.
