Step 1 — Back Cover

- Switch off your phone and remove the SIM card tray.

Step 2

- Remove the Torx T2 screws from the bottom of the phone

Step 3

- Use an iSclack or a suction handle in the bottom area of your phone to separate the display unit from the rear panel.

Step 4
- Use an opening pick to fully separate the clips, releasing the phone.

  ⚠️ Do not fully remove the rear case. The fingerprint sensor cable is still connected to the back cover.

- Open the phone like a book from the SIM tray side.

- Use a spudger, to disconnect the fingerprint sensor cable.
