INTRODUCTION

Scratched or broke your back cover somehow? Use this guide to replace the back cover on your Huawei P8 Lite.

TOOLS:

- [iFixit Opening Tools](#) (1)
-

Step 1 — Back Cover

- Use an Opening Tool and start to lever up the back cover of your Huawei P8 Lite at the bottom of your phone.

Step 2

- There are clips around the whole mid frame, holding down the back cover. Open all of them with the Opening Tool.
- When all clips are open, remove the back cover from the rest of the phone.
- ❗ If the back cover doesn't come freely, there are probably some additional clips that need to be disconnected.

To reassemble your device, follow these instructions in reverse order.
