

# Huawei P8 Lite Battery Replacement

This guide will help you replace the battery inside your Huawei P8 Lite phone.

Written By: John Poffenberger

## INTRODUCTION

This guide will help you replace the battery inside your Huawei P8 Lite phone.

### TOOLS:

- [64 Bit Driver Kit](#) (1)
- [Spudger](#) (1)
- [Phillips #000 Screwdriver](#) (1)
- [T5 Torx Screwdriver](#) (1)

### PARTS:

- [Huawei P8 Lite battery](#) (1)

## Step 1 — Loudspeaker

- Begin by removing the back cover of the device with the [Spudger](#). To prevent damage to the back cover, begin removing the cover half an inch to the right of the headphone jack and continue prying around the perimeter of the device.

## Step 2

- Locate the Loudspeaker at the bottom of the device.
  - Remove the four black screws using the [T5 Torx Screwdriver](#).
  - Then use the [Phillips #000 Screwdriver](#) to remove the three silver screws.

## Step 3

- Use the [Spudger](#) to gently remove the Loudspeaker from the device. Place the replacement Loudspeaker into the device.

## Step 4 — Motherboard

- Continue by removing the SIM and SD card trays on the side of the device.

## Step 5

- Remove the two Torx T5 screws. One may be cover with a liquid indicator.
- Remove the five Phillips #000 screws.
- Take away both securing brackets covering the motherboard.

**i** If your phone has an NFC antenna, taking away the cover will automatically free its flex connector from the motherboard.

## Step 6

- Remove the three Phillips #000 screws on the silver panel.

## Step 7

- Carefully separate the four connectors holding the motherboard in place.
- Remove the motherboard from the device.

## Step 8 — Battery

- Locate the adhesive strip underneath the battery. Gently pull on the strip to loosen it enough to remove the battery from the device.

## Step 9

- Use the [Spudger](#) to gently remove the battery. Then insert the replacement battery.

To reassemble your device, follow these instructions in reverse order.
