## INTRODUCTION

In this guide, instructions will be laid out to guide the replacement of the Huawei P8 Lite's front and rear facing cameras.

### TOOLS:

- [SIM Card Eject Tool](#) (1)
  - [Spudger](#) (1)
  - [T5 Torx Screwdriver](#) (1)
  - [Phillips #000 Screwdriver](#) (1)
-

## Step 1 — Camera

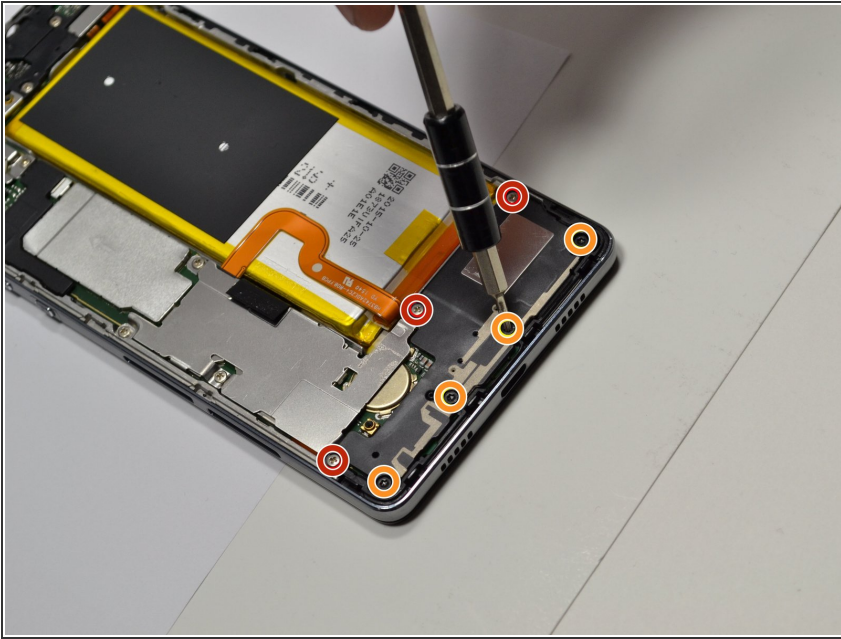

- Remove the SIM that is connected with the mother board.

## Step 2

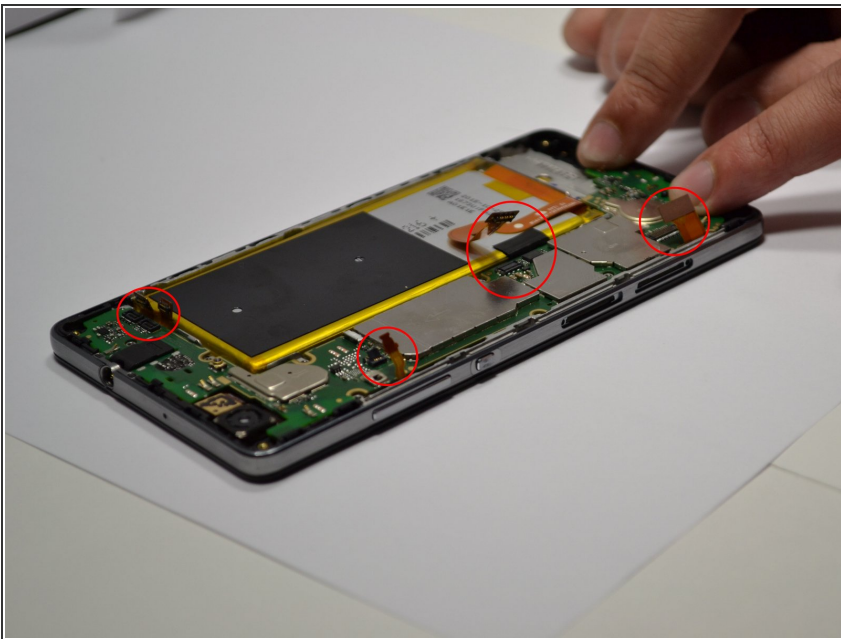

- Remove the back cover. It is not fastened with screws or adhesive so it can be removed with your finger nails, spudger or other gentle tools.

### Step 3

- Use screwdriver from [54 Bit Driver Kit](#) in order to remove screws. Be sure to separate the screws to avoid confusion.
- PH000 Bit
- T5 Torx

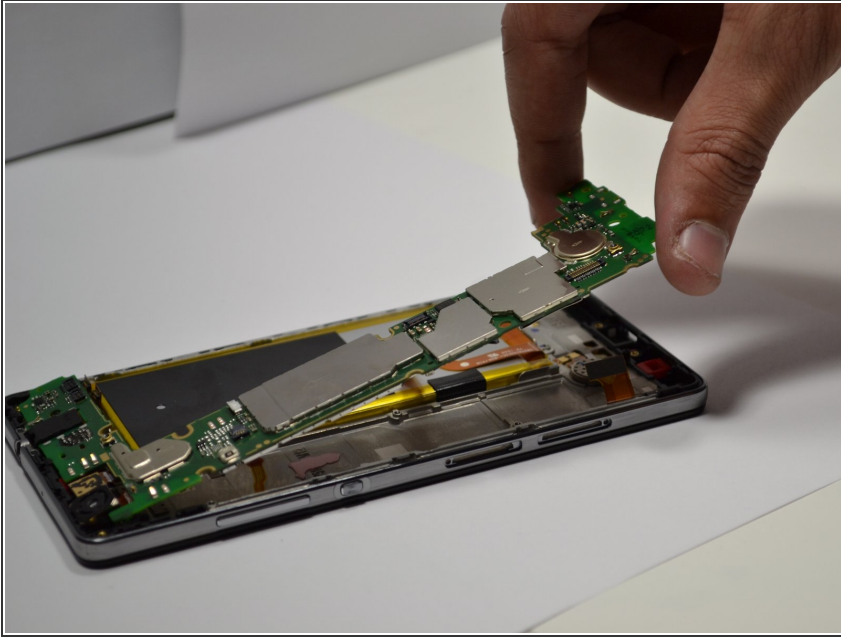

### Step 4

- Remove the connectors attached to the motherboard. See the highlighted areas in the photos.

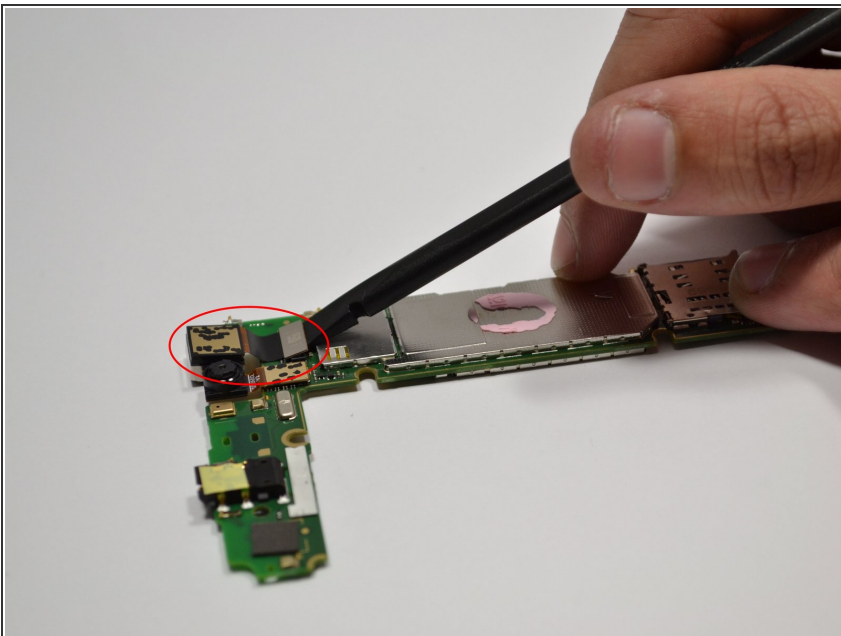

## Step 5

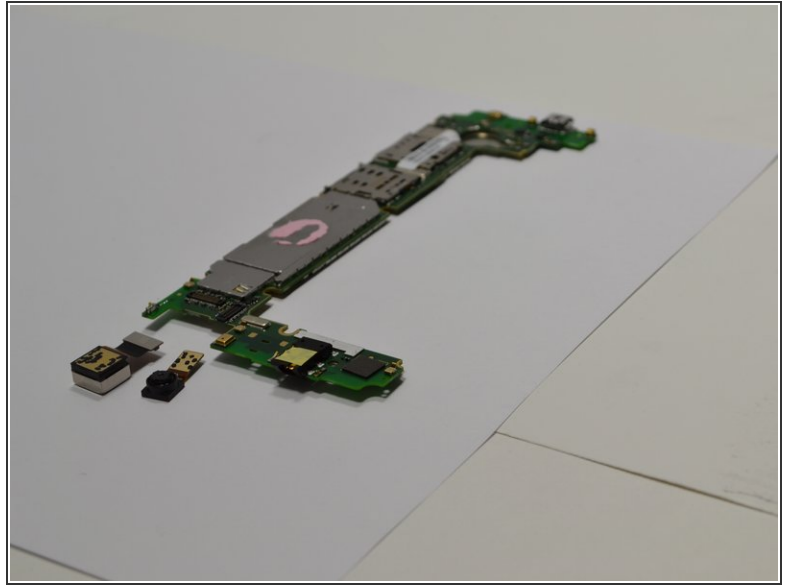

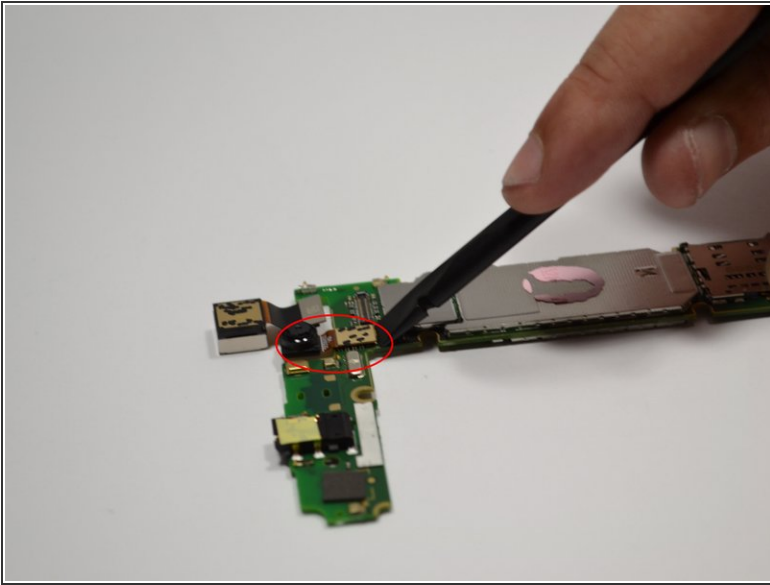

- Remove the motherboard carefully.
- Replace the motherboard. To replace the motherboard, do it in the reverse order as the [teardown process](#).

## Step 6

- With the motherboard removed, take the spudger tool and remove the front camera.

## Step 7

- Use the spudger to remove the rear camera. To replace, begin in reverse order.

To reassemble your device, follow these instructions in reverse order.
