

# IBM ThinkPad T42 Keyboard and Trackpad Replacement

This guide will demonstrate how to replace an IBM ThinkPad T42's keyboard and trackpad.

Written By: Austin Kidd

## TOOLS:

- [Phillips #0 Screwdriver](#) (1)
-

## Step 1 — Bottom Cover

- Unscrew the 20 Phillips screws on the underside of the T42.
- ⓘ For ease of reassembly, keep your screws organized.

## Step 2 — Rear Screws

- Unscrew the 2 Phillips screws on both sides of the T42's rear.

### Step 3 — Keyboard/Trackpad Removal

- Flip the laptop over and open the screen.
- ⚠ The bezel and keyboard will be loose, be careful.

### Step 4 — Disconnecting Ribbon Cables

- Carefully maneuver the palm rest away from the keyboard, as both the keyboard and palm rest/trackpad will come off together.
- ⚠ Remember, both the keyboard and trackpad have connectors to the motherboard. Disconnect these before completely removing either component.

To reassemble your device, follow these instructions in reverse order.
