

# Installation/Removal of the WIC/HWIC card

Installation/Removal of the WIC/HWIC card for a Cisco 1901 router. Installation of interfaces and modules for the Cisco 1900 series routers.

Written By: Eneider Colina

## INTRODUCTION

In the document you can see the compatible modules with the equipment.

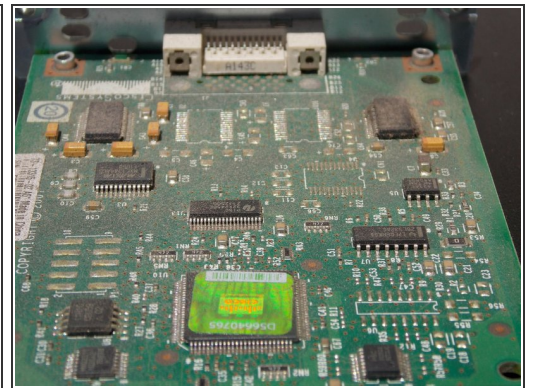

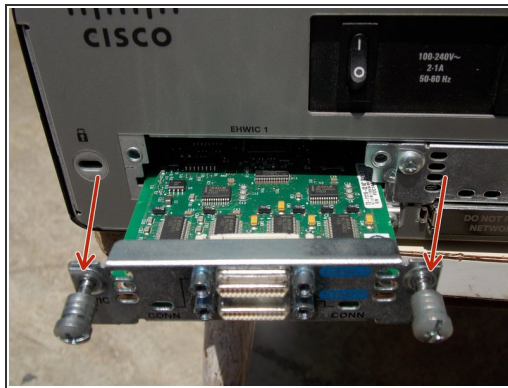

## Step 1 — Turn the equipment off

 In order to install or remove a card the equipment should be turned off.

## Step 2 — Remove the port covers on the EHWIC

- Loosen the cards' screws.
-  Do not remove them completely. Once they are loose the spring will push the screw outwards.
- To remove, pull on the card.
-  It is recommended that you clean the card of dust.

### Step 3 — Insert the card

- ⓘ Insert the card or install the protective router cover to avoid dust accumulation.

To re-assemble your device, follow these instructions in reverse.
