

# Iomega Z100S2 Case Replacement

Installing the top cover of the case

Written By: Chris Rudolph

 **TOOLS:**

- [Spudger \(1\)](#)

## Step 1 — Case

- Push in the plastic tab that can be seen through cracks in the front left corner using a spudger.

## Step 2

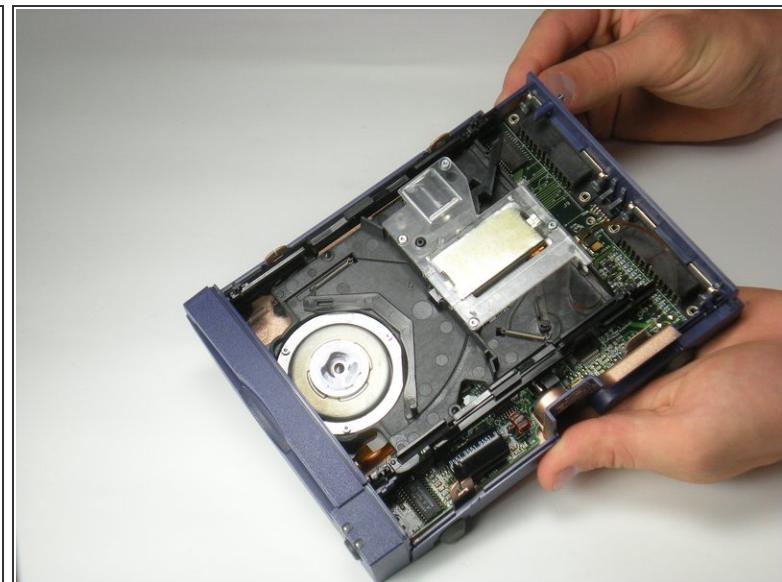

- Move down the same side and push in the plastic tab.

## Step 3

- Move to the front right side and once again push in the plastic tab.
- *(i)* There is not a fourth tab to push in after this one.

## Step 4

- Grab the cover by the front side and pull upwards.
- You might encounter some resistance. Pull firmly, but don't yank it.

## Step 5

- Tilt the front case down until the pegs detach from the bottom of the case.
- Lift up and outward.

**(i)** The motherboard will be loose at this point.

To reassemble your device, follow these instructions in reverse order.
