

# Ion Air Pro Lens Cover Removal

This guide provides instruction on replacing the Ion Air Pro's lens cover.

Written By: Christopher Brandl

## INTRODUCTION

Is the lens cover of your device dirty or broken? Consider using this guide to replace the lens cover of your camera.

### TOOLS:

- **Phillips #00 Screwdriver (1)**

## Step 1 — Lens Cover

- Remove the 6 screws that secure the lens cover bezel with a #00 Phillips screwdriver.

## Step 2

- Lift the lens cover bezel off of the camera body.

## Step 3

- Pull lens cover off of the camera body.

 Be careful to not scratch the camera lens while removing the lens cover.

To reassemble your device, follow these instructions in reverse order.
