

JBL Charge 3 Front Cover Replacement

This guide will teach you how to remove the front cover of the JBL Charge 3.

Written By: Aidan Hays

INTRODUCTION

Going on to further repairs or just replacing a broken front cover? This guide will teach you the first step of opening up your JBL Charge 3.

TOOLS:

- [iFixit Opening Tools](#) (1)
-

Step 1 — Front Cover

- Turn your speaker upside down and insert the plastic opening tool vertically into the slit in the front cover.
- Slowly pull the plastic opening tool outward to remove the four clips holding the covering in place.
- Repeat this process for all four edges of the front cover.

Step 2

- Pull apart your cover gently from both sides and remove it from the speaker housing.
- ✦ The inside of the front cover has holes that must match with their corresponding pins on the speaker housing for proper reassembly.
- ⚠ Removing the Front Cover does not affect the waterproof seals of the device. However, removing any further disassembly of your speaker will require removing waterproof seals and gaskets. Your device may no longer be waterproof after these have been altered.

To reassemble your device, follow these instructions in reverse order.
