 **TOOLS:**

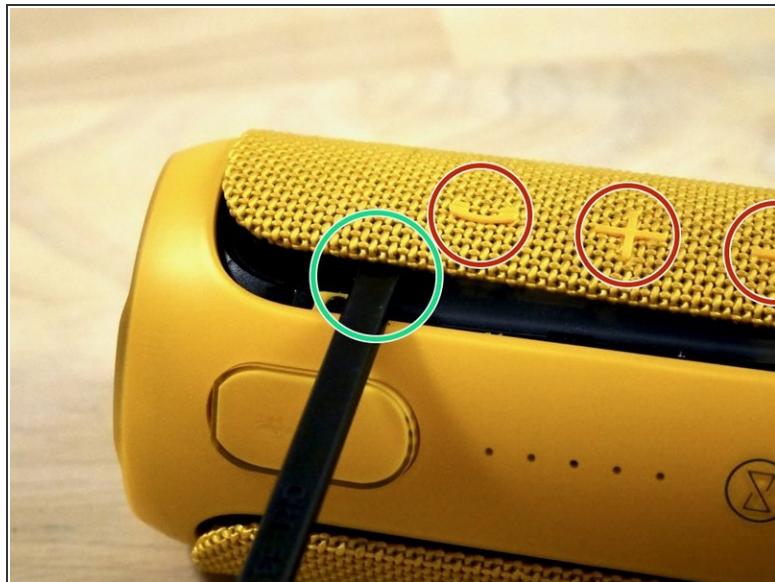

- [Spudger \(1\)](#)
- [Phillips #00 Screwdriver \(1\)](#)

Step 1 — Remove first protective cover

- Pry up the two tabs on one side.

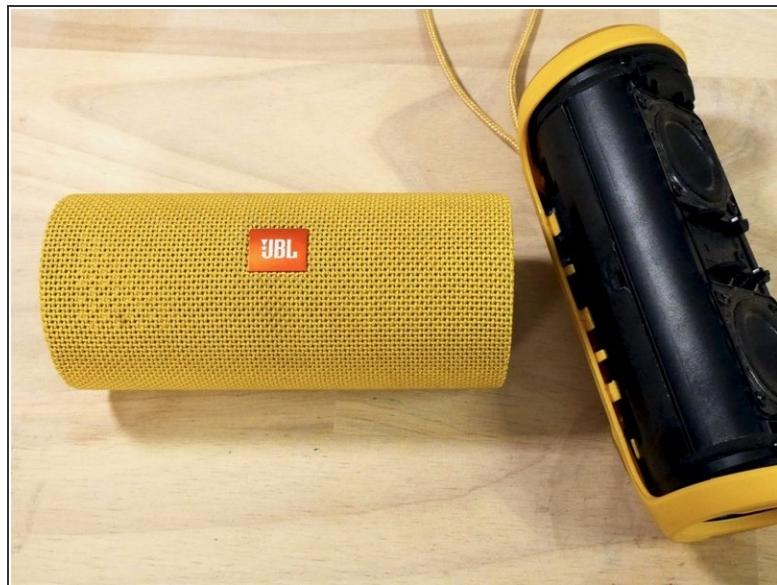

Step 2

- Pry up the other two tabs, they are located on the other side.

⚠ Be careful not to break the delicate buttons.

Step 3 — Remove first protective cover

- Remove the cover.

 Don't pull it too much, otherwise it could break.

Step 4 — Detach second protective cover

- Unscrew the four screws located on the edge.
- ⓘ The screws usually remain captive, if they fall off after all, put them aside.

Step 5 — Remove second protective cover

- Remove the second protective cover.

Repeat the same steps in reverse order to reassemble your device.
