Step 5

- Remove the front panel.

Step 6 — Metal Case
- Use the Phillips #0 Screwdriver to remove the screws off of the metal case.
Step 7

- Carefully separate the top and bottom halves of the metal case apart.

- (i) Do not separate the metal case halves completely.

- Carefully pull the DVD-Drive ribbon cable from the motherboard.

Step 8 — DVD-Drive

- Use the Phillips #0 Screwdriver to remove the three screws.

Step 9

- Lift the DVD-Drive to separate it from the metal case.

To reassemble your device, follow these instructions in reverse order.
