

# Kenwood KDC-BT362U LCD Screen Replacement

This guide will demonstrate how to reach and replace the LCD Screen.

Written By: Steven Chov

 **TOOLS:**

- [iFixit Opening Tools \(1\)](#)
- [Phillips #0 Screwdriver \(1\)](#)
- [Metal Spudger \(1\)](#)

## Step 1 — Front Panel

- Locate the face-plate eject button.

## Step 2

- Press the eject button with your forefinger.
- Remove the face-plate.

## Step 3

- Starting on the top side, pop the front panel frame out.
- Remove the face-plate frame.

## Step 4

- Use the plastic opening tool to pry open the tabs.
- Repeat on the opposite side.

This document was generated on 2019-09-21 01:13:32 PM (MST).

## Step 5

- Remove the front panel.

## Step 6 — LCD Screen

- Use the Phillips #0 Screwdriver to remove the four screws.

## Step 7

- Use the plastic opening tool to pry it open.

## Step 8

- Lift and remove the motherboard to reveal the inside of the front panel.

## Step 9

- Use the metal spudger to straighten out the six pegs to allow the removal of the LCD Screen.

## Step 10

- Lift the LCD Screen to remove and replace it.

To reassemble your device, follow these instructions in reverse order.
