

# Keyboard replacement

Written By: Felice Suglia

## TOOLS:

- [Phillips #0 Screwdriver](#) (1)
-

## Step 1 — Battery

- Open the latch on the right side that secures the battery in place.
- Open the latch on the left side that secures the battery in place.
- Now remove the battery.

## Step 2 — Keyboard

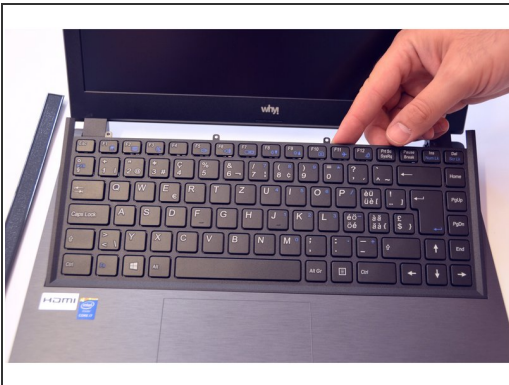

- Gently press on the first clips to remove the cover strip with the ON / OFF button.
- Gently press on the second clips to remove the cover strip with the ON / OFF button.
- And so on.

## Step 3

- Then flip the laptop over and free the cover strip.
- The four keyboard fixing screws are now visible.
- Now loosen these fixing screws.

## Step 4

- Now release the keyboard slowly.
- Now turn them over.
- Now release the keyboard cable.

## Step 5

- Once the plug cable is disconnected, carefully lift the keyboard out.

To put the device back together follow the steps in reverse order.
