

# KitchenAid Professional 600 Top Cover Replacement

Written By: Luke

---

## INTRODUCTION

Outline what you are going to teach someone how to do.

### TOOLS:

- [Phillips #2 Screwdriver](#) (1)
-

## Step 1 — Top Cover

- Take out the screw which holds on the silver band using a Phillips #2 screwdriver.
- Remove the silver band.

## Step 2

- Remove the four Phillips #2 screws located around the mixer where the band was removed.
- ⓘ This picture only shows two of the screws that you need to remove. The other two are on the exact opposite side of the mixer.

### Step 3

- Remove the top of the mixer to reveal the inner parts.

To reassemble your device, follow these instructions in reverse order.
