

Kyocera Hydro Life Power Button Replacement

This guide provides steps to replace the power button for the Kyocera Hydro Life phone.

Written By: Haley Brown

INTRODUCTION

This guide will show you how to disassemble the Kyocera Hydro Life phone in order to replace the power button.

TOOLS:

- [Tweezers](#) (1)
 - [iFixit Opening Tools](#) (1)
 - [Phillips #00 Screwdriver](#) (1)
-

Step 1 — Power Button

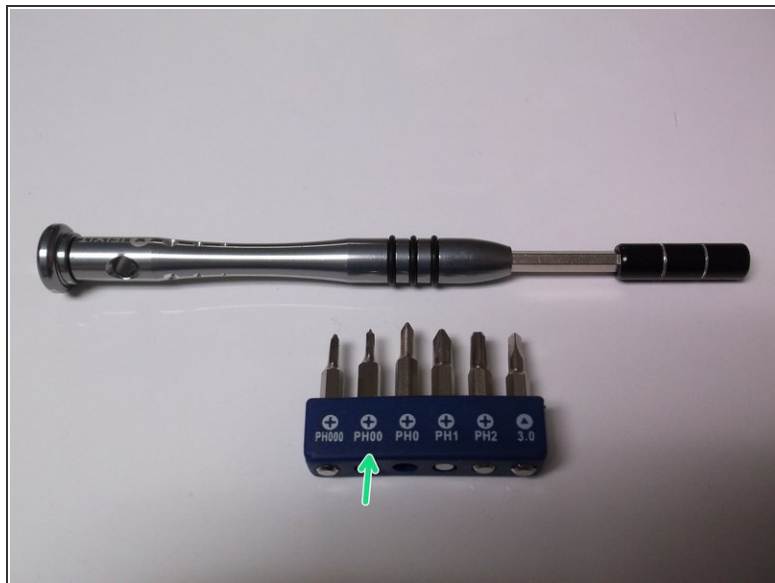

- Remove the back cover.
- ❗ Pry the cover upward from the gap above the charger port as displayed.

Step 2

- Remove the battery.

Step 3

- Use a PH00 screwdriver to remove the 6 screws from the mid-frame.
- ⚠ Removing the screws too carelessly can result in them being damaged or stripped.

Step 4

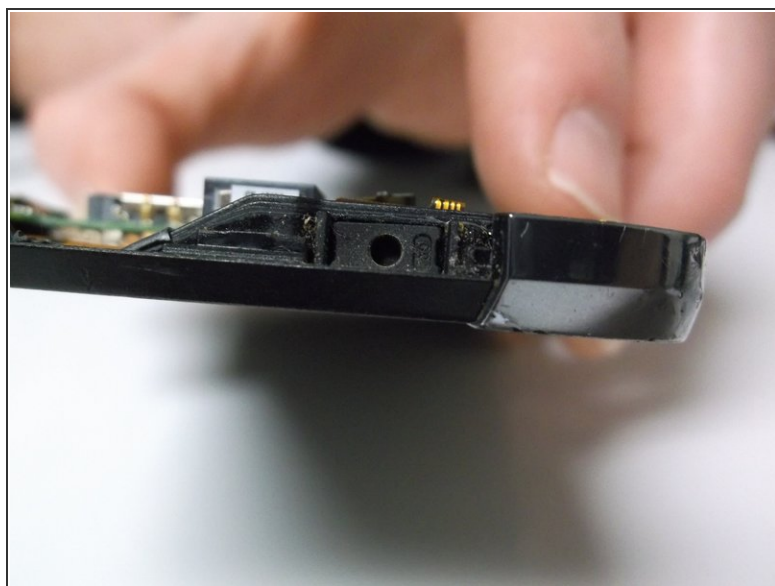

- Remove the back panel trim.
- ⚠ The back panel trim is fairly thin, be cautious when removing it.

Step 5

- Remove the back panel.
- ❗ Pry off the 4 corners first.

Step 6

- Remove the power button with the tweezers.

To reassemble your device, follow these instructions in reverse order.
