Step 1 — Battery

- Power down the cell phone by pressing and holding down the red "end call" button.

Step 2

- Turn the phone screen-down so you are looking at the back cover.

Step 3

- Slide the back cover down using your finger to remove the cover from the phone.

Step 4

- Place your finger at the top of the battery in small gap.

Step 9

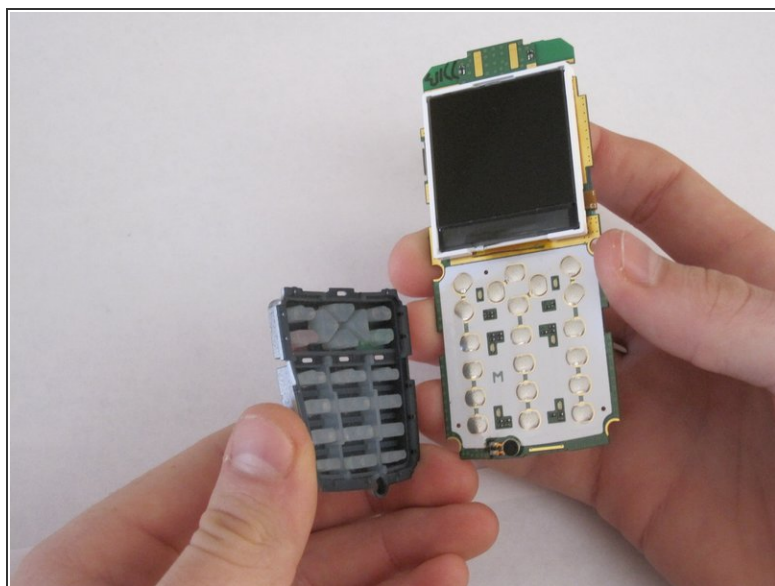

- Pull the phone back cover off once all the tabs are released.

Step 10

- Push the contents of the phone away from the hardshell case by applying pressure to the keypad with both thumbs.

Step 11

- The hardshell case is separated from the rest of the phone.

Step 12 — Keypad

- Separate keypad from circuit board by turning it upside down and allowing it to fall off.

To reassemble your device, follow these instructions in reverse order.
