

LG Cosmos Rear Case Replacement

This guide provides step by step instructions on how to install the rear case.

Written By: Johnny Phane

INTRODUCTION

If the rear case is damaged, it is simple and quick to replace. It requires the removal of five screws and prying of the rear case.

TOOLS:

- [Phillips #000 Screwdriver](#) (1)
- [iFixit Opening Tools](#) (1)

PARTS:

- [LG Cosmos VN250 Rear Case](#) (1)

Step 1 — Battery

- Apply an upward force to slide the back cover off.

Step 2

- Use your finger to push down on the top of the battery and pull it out.

Step 3 — Rear Case

- Remove the five 3.0mm Phillips #000 screws along the edge of the rear case.

Step 4

- Use a plastic opening tool to pry the rear case loose.

Step 5

- Once the rear case is loose, lift it from the rest of the phone.

To reassemble your device, follow these instructions in reverse order.
