

# LG G Watch Battery Replacement

This guide shows how to separate the back of the watch from the face as well as how to remove and replace the battery.

Written By: Deja Miller

## INTRODUCTION

If your watch does not power on after being on the charging station for about an hour the battery needs to be replaced.

### TOOLS:

- Spudger (1)
- iFixit Opening Picks set of 6 (1)
- Tweezers (1)
- T5 Torx Screwdriver (1)
- Phillips #000 Screwdriver (1)

### PARTS:

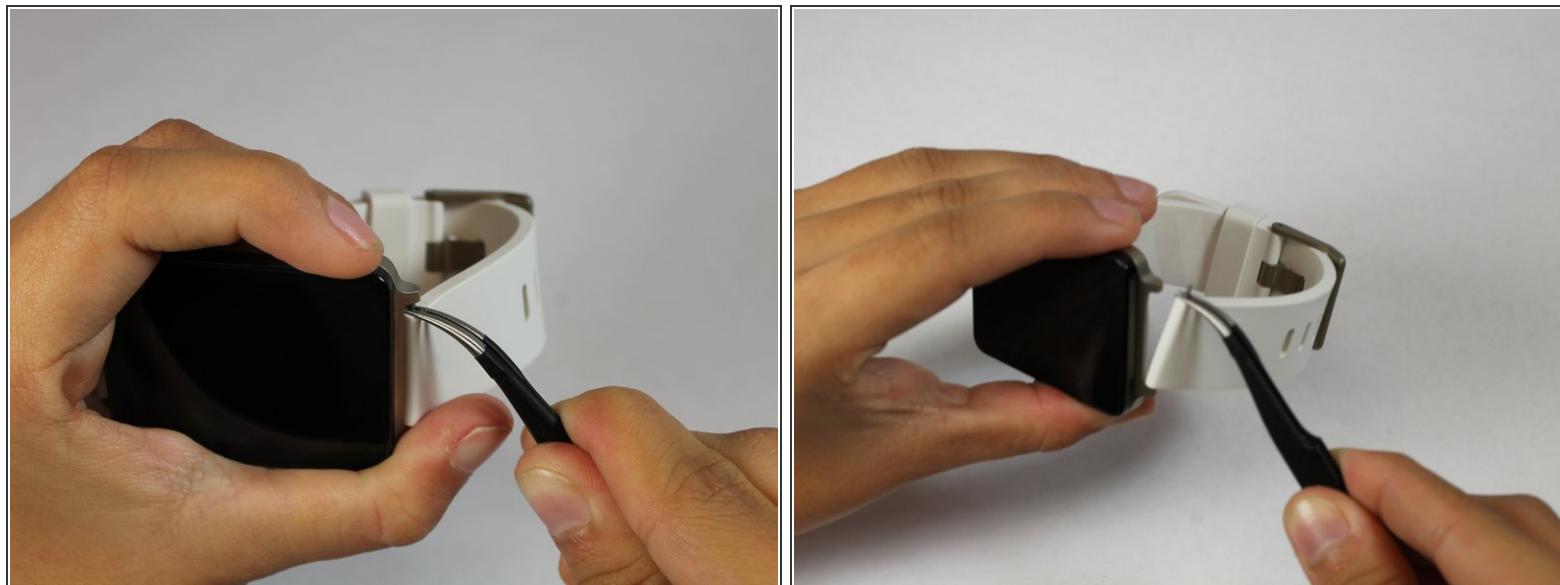

- Replacement LG BL-S1 Battery (1)

## Step 1 — Wristband

- ➊ Spring bars attach the two halves of the wristband to the watch body. The spring bar has a shoulder on either end.
- ➋ Be prepared to apply some pressure with your fingers to perform the following action.
  - ➌ First, slide the wristband down on the spring bar to expose the shoulder of the spring bar.
  - ➍ Grasp the exposed shoulder with the tweezers to perform the next step.

## Step 2

⚠ This is a challenging step. Do it carefully to prevent the spring bar from flying out of the wristband.

- Use the tweezer to depress the spring bar so that it collapses by a few millimeters and pops out of the hole that was holding it in place.
- Now carefully pull the other end of the spring bar to detach the wristband from the watch face.

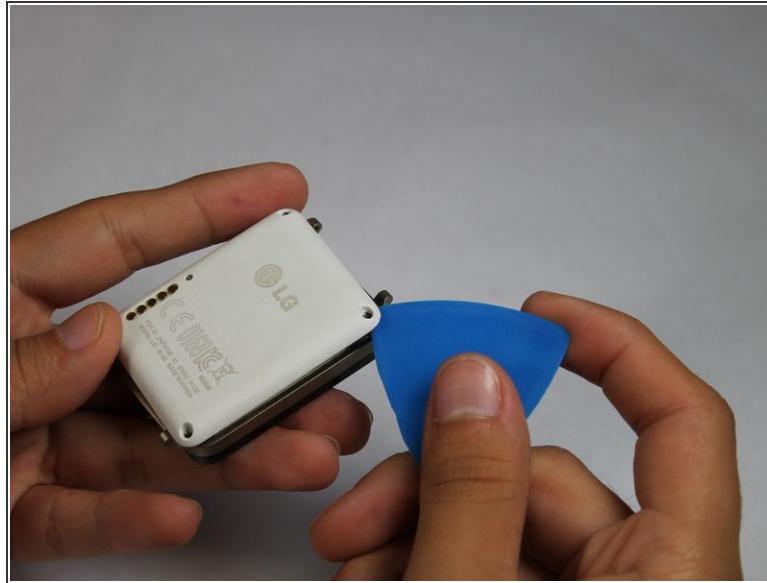

★ Repeat steps 1 and 2 for the other wristband.

## Step 3 — Rear Case

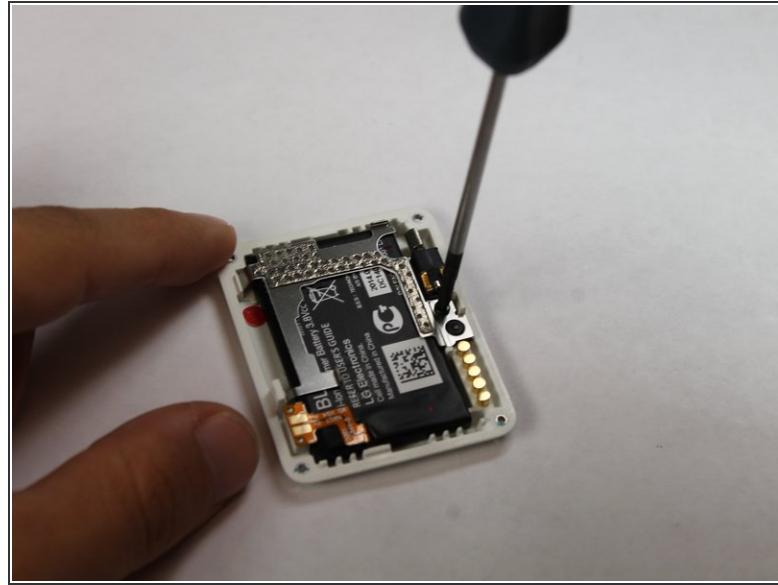

- Use the T5 Torx screwdriver to unscrew the four silver 2mm x 3mm T5 screws that hold the back cover in place.

## Step 4

- Slide the opening pick between the rear case and the rest of the device to separate the two halves.
- Gently pull the two halves apart.

## Step 5 — Battery

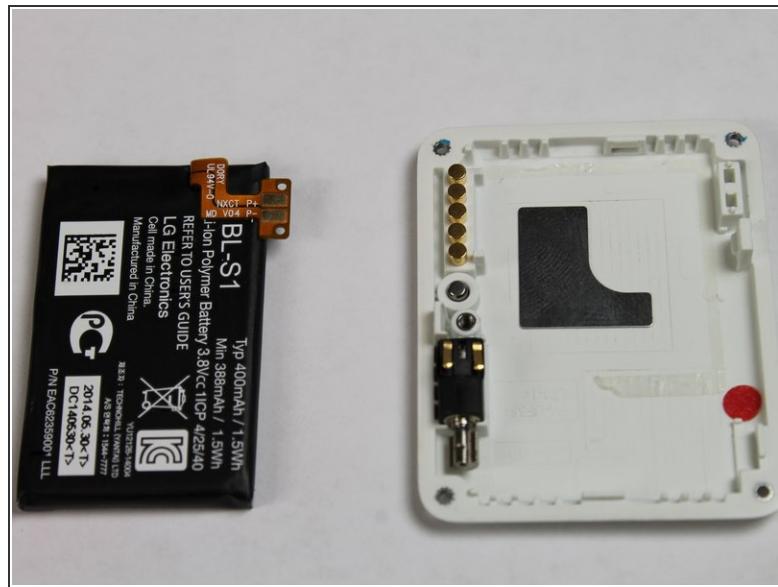

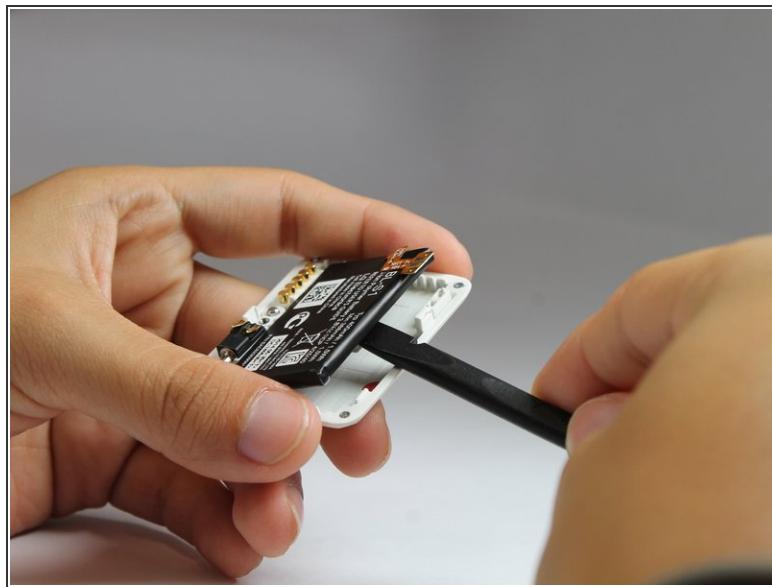

- Remove the two black Phillips #000 2.5x3mm screws that are located on the right side of the metal clip.

## Step 6

- Use a pair of tweezers to gently lift the metal retaining clip up and out of the way.

## Step 7

- Use a spudger to gently pry the battery up from the rear case.
- *(i)* The battery is attached with a small amount of adhesive, so some force may be required.

To reassemble your device, follow these instructions in reverse order.
