

LG G5 Charging Port Replacement

This guide will give instructions on how to replace the charging port on the LG G5

Written By: Joshua Zalmanowitz

 **TOOLS:**

- [Phillips #000 Screwdriver \(1\)](#)
- [Phillips #00 Screwdriver \(1\)](#)
- [iFixit Opening Tools \(1\)](#)
- [Tweezers \(1\)](#)

 **PARTS:**

- [LG G5 Charging Assembly \(1\)](#)

Step 1 — Battery

① Power down the phone by holding the power button for several seconds.

- While holding the battery release button, pull the bottom end of the phone out of the body.

Step 2

- Separate the battery from bottom half.

★ Insert the new battery in the same position and orientation as the old battery. Match up the arrows to be sure the orientation is correct.

Step 3 — Charging Port

- Remove the two 5.5mm Phillips #00 screws from the base of the phone.

Step 4

- Insert the plastic opening tool into the bottom seam
- Pry the plastic from the base only a slight amount.

Step 5

- Remove the one 5.5mm Phillips #000 screw.

Step 6

- Insert the plastic opening tool into the seam between the two plastic layers.
- Pry the plastic from the body.

Step 7

- Insert the plastic opening tool into the seam under the metal charging port.
- Pry the metal charging port from the body.

To reassemble your device, follow these instructions in reverse order.
