

# LG L1200 Internal Speaker Replacement

Written By: Joshua Herrmann

## INTRODUCTION

This guide will help you replace the internal speaker found in the earpiece of the phone.

### TOOLS:

- [Desoldering Braid \(1\)](#)
- [iFixit Opening Tools \(1\)](#)
- [Soldering Workstation \(1\)](#)
- [Spudger \(1\)](#)
- [T6 Torx Screwdriver \(1\)](#)

## Step 1 — Inner LCD Screen

⚠ Make sure you remove the battery by lifting the tab on the back of the phone before opening the case.

- Flip open the phone and locate the four screw covers.

## Step 2

- Remove all four screw covers by using an iPod opening tool. They should come off relatively easy.

## Step 3

- Using a T6 Torx screwdriver, remove all four screws.

## Step 4

- Once the screws are removed, use an iPod opening tool to separate the front cover from the inner screen cover.
- Run the iPod opening tool down both sides, disconnecting the tabs that hold the covers together.

## Step 5

- Pull the inner screen cover towards you and up in order to separate it from the front cover.

## Step 6

- Remove the tape from the bottom of the LCD screen.

## Step 7

- Carefully lift the LCD screen and peel it from the gold ribbon. The sticky connection runs all the way around the LCD screen.

## Step 8

- Flip the screen over so that you can see the outer LCD screen and the circuit board.
- Insert spudger in the bottom right corner.
- Lift up and move the spudger across the bottom.

*(i)* The third photo is rotated 180 degrees.

## Step 9

- Use the pointy side of the spudger to peel off the interior tape.
- Flip the assembly over and peel the circuit board from the screen.

## Step 10

- Use the spudger to remove the LCD screen from its backing.

## Step 11 — Internal Speaker

- Desolder the wires connecting the speaker.
- Solder on wires from new speaker.

To reassemble your device, follow these instructions in reverse order.
