

LG Leon LTE Battery Replacement

Use this guide to replace battery in your LG Leon LTE.

Written By: Geul Kim

INTRODUCTION

This guide will walk you through the process of replacing a dead or dying battery in your LG Leon LTE.

TOOLS:

- [iFixit Opening Tools \(1\)](#)

Step 1 — Battery

- Flip phone to the back so you can access back of the phone which holds the battery.

Step 2

- Pry the back of the phone open in the incision area at the bottom of the phone with your opening tool in an upward direction to retrieve access to the battery.

ⓘ Some force will be needed

Step 3

- Once the back is removed, you will have access to the battery. Remove the battery and insert a replacement.

(i) The battery is missing in this photo.

To reassemble your device, follow these instructions in reverse order.
