

LG Optimus F60 Screen Replacement

Replace your broken phone screen to be able to operate your device again.

Written By: Kayli Beidler

INTRODUCTION

This guide will take you through the process of replacing the screen in an LG Optimus F60. This task should take about 6 minutes to complete.

TOOLS:

- [iFixit Opening Tools](#) (1)
 - [Tweezers](#) (1)
-

Step 1 — Battery

- Hold the phone in your hand and position the small plastic opening tool or your finger under the lip of the phone by the USB port.
- Pry or lift up on the indent with the opening tool.
- Remove the back panel.

Step 2

- Place the small plastic opening tool or your finger at the indentation at the base of the battery.
- Pry upwards or lift with your finger and remove battery.

Step 3 — Screen

- Remove the eight 4 mm screws on the inner panel using the phillips #000 Screwdriver

Step 4

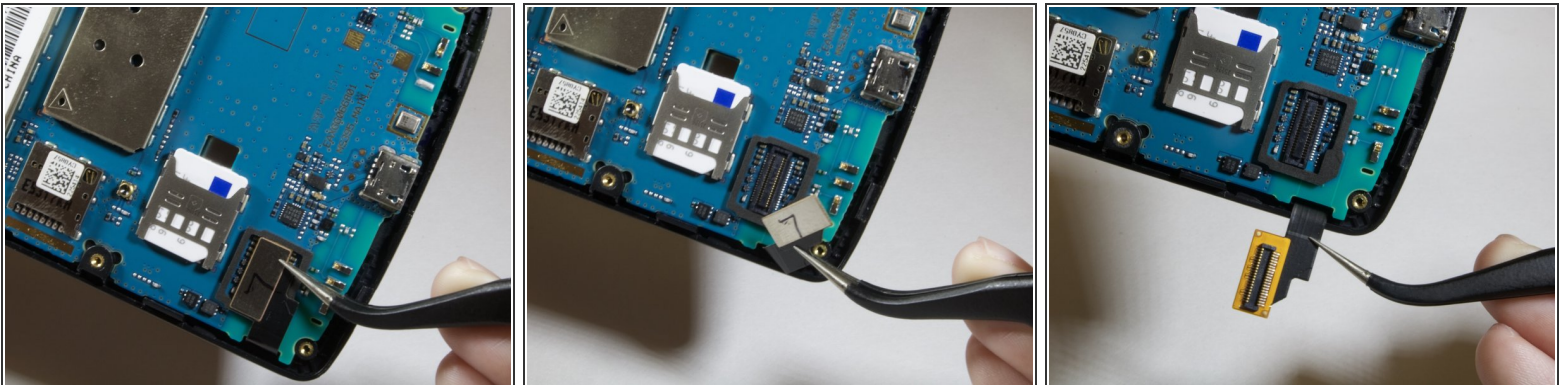

- Remove bottom of inner panel.

Step 5

- Remove inner panel using plastic opening tool.
- ⓘ Apply force upwards while wiggling the tool further in.

Step 6

- Unlatch Connector on bottom left of phone.

Step 7

- Pull motherboard to detach digitizer from the motherboard

To reassemble your device, follow these instructions in reverse order.
