

LG Optimus L7 P705 Rear Facing Camera Replacement

The following guide explains how to replace the back camera.

Written By: Veronica D'Agosta

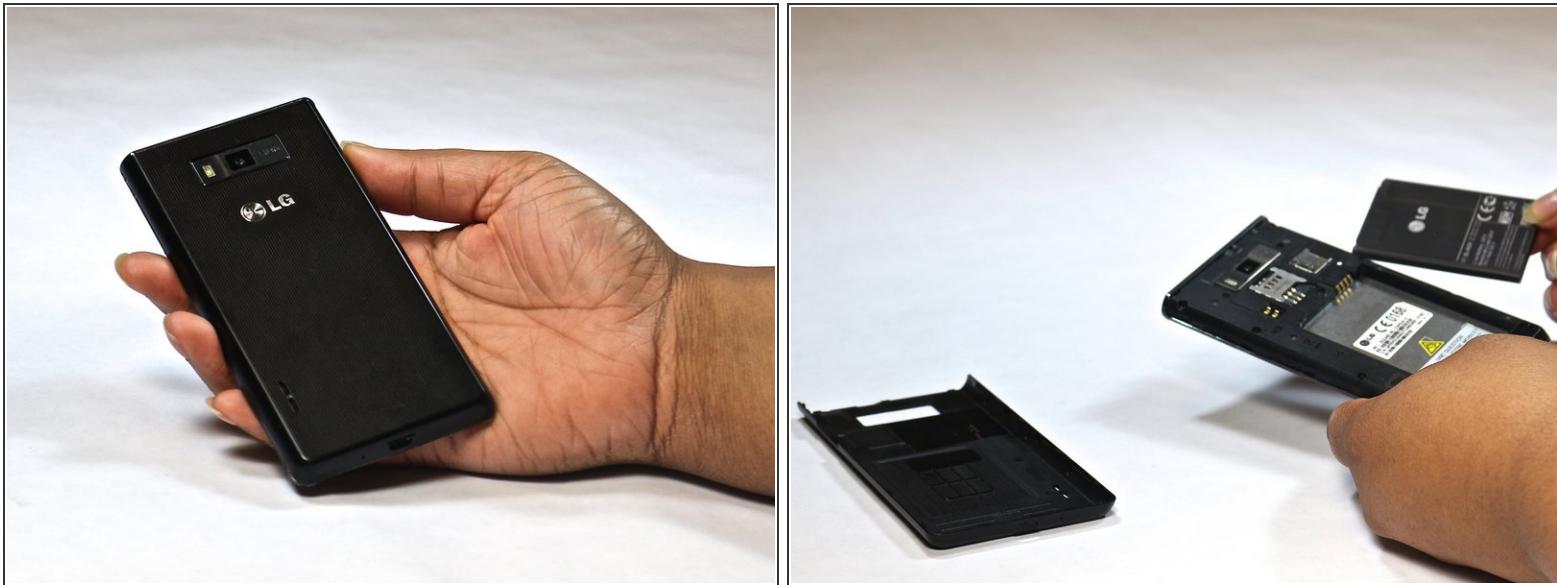

INTRODUCTION

Is the back camera of the device not working properly? Time to replace it with a new and better one! Follow this easy and quick guide!

TOOLS:

- [iFixit Opening Tools \(1\)](#)

Step 1 — Battery/SIM Card

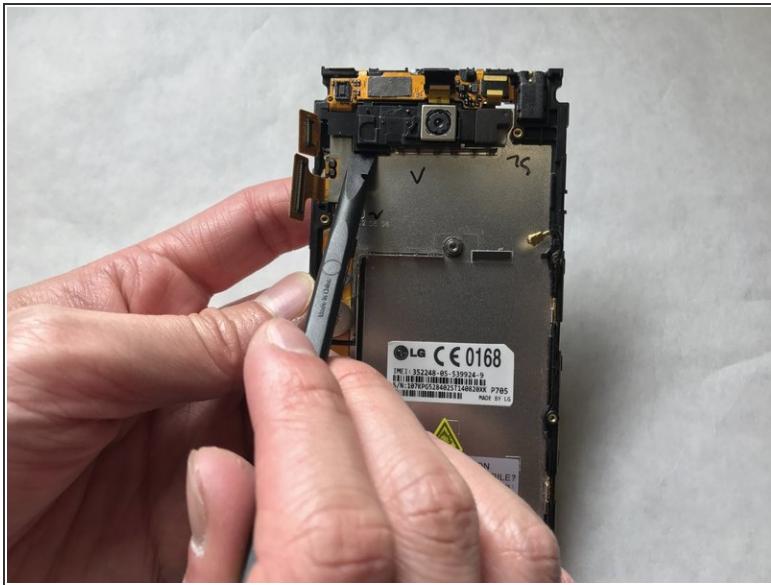

- Insert a plastic opening tool between the seams of the device and pry the back cover away from the phone.
- Remove the battery and SIM card.

Step 2 — Camera

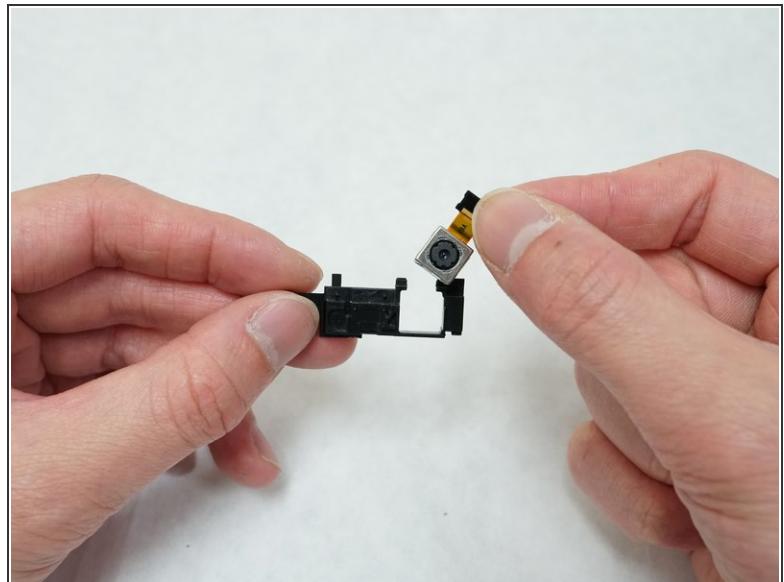

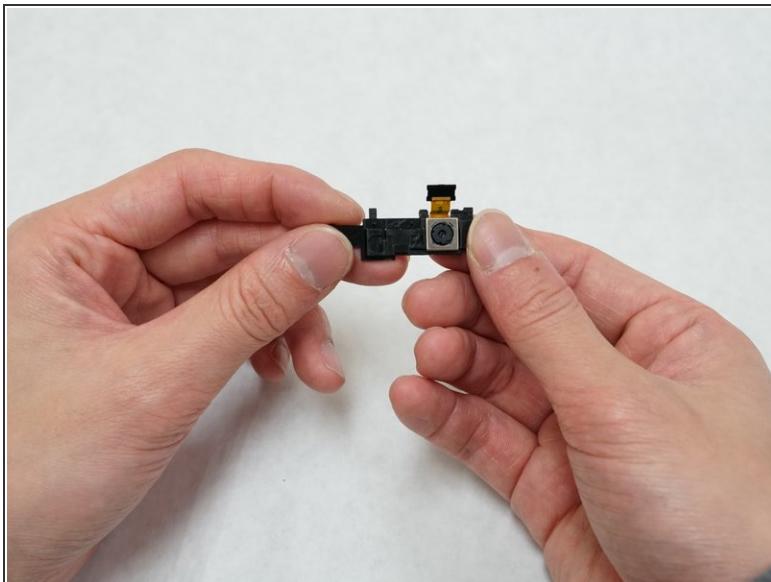

- Lift the three connectors using the plastic spudger.

Step 3

- Starting from the right, remove the attached black mount using the plastic spudger.

Step 4

- Apply some pressure on the back of the mount to detach the camera.
- Replace the camera as needed.

To reassemble your device, follow these instructions in reverse order.
