Step 2

- Locate the opening right above the camera.
- Use a spudger to detach the back cover.

Step 3

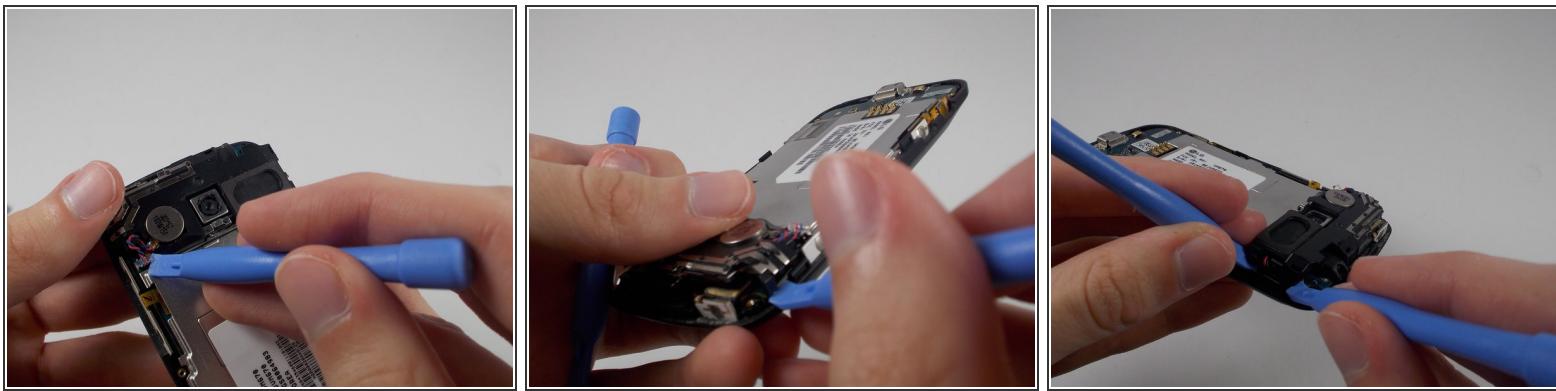

- Gently remove the battery with your spudger.

Step 4 — Camera

- Remove the six screws on the silver casing.
- Use the plastic opening tool to remove the silver casing.

Step 5

- Use a plastic opening tool to remove each area holding the parts together.

Step 6

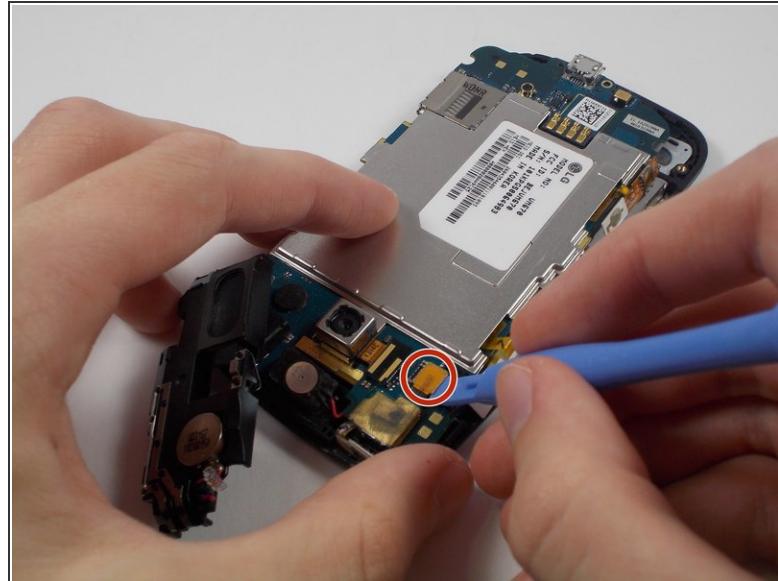

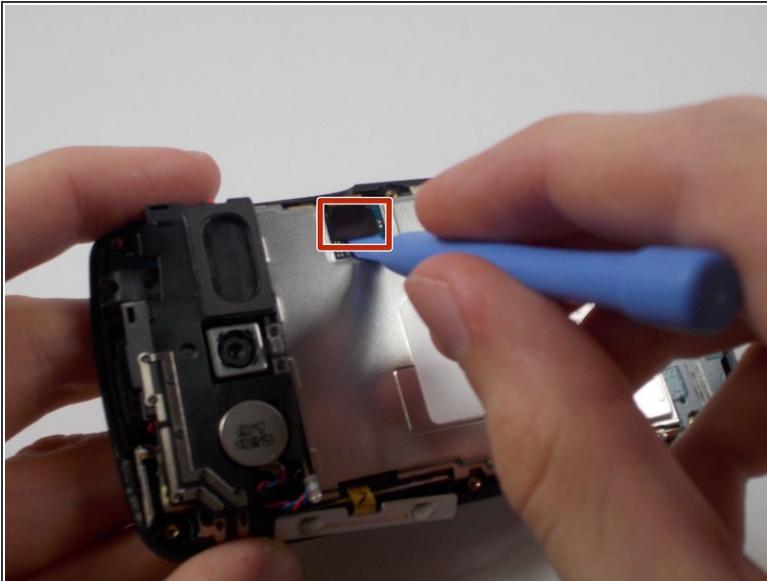

- Use a plastic opening tool to remove the small black and yellow piece that reads Y3114C.
- Use a plastic opening tool to pry off the camera.

Step 7 — Screen

- Once you have removed the antenna, unscrew the two screws located on the sides of the charging port.

Step 8

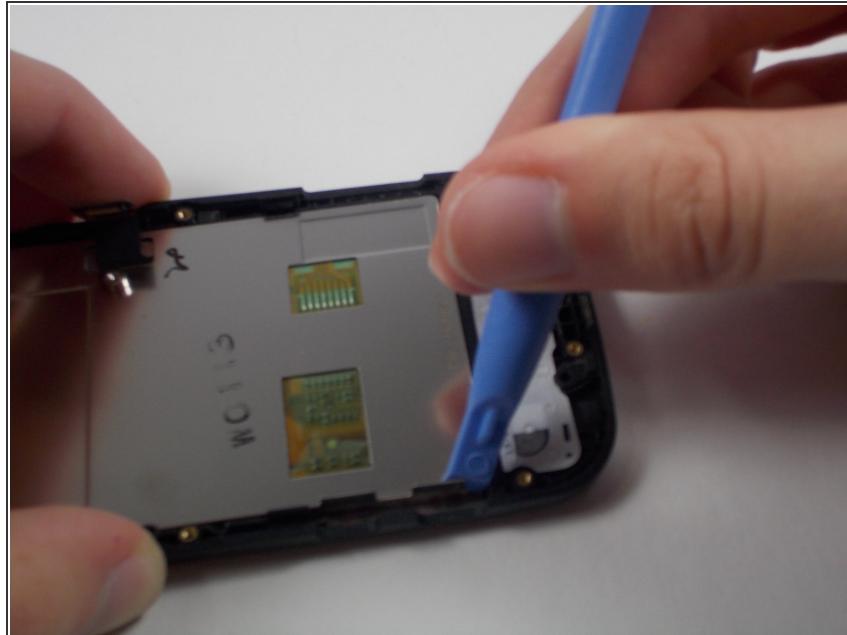

- Using your plastic opening tool, lift up the connectors on either side of the motherboard.

Step 9

- Remove the motherboard and set it aside.

Step 10

- Using a plastic opening tool, detach the screen from the plastic casing of the phone.

To reassemble your device, follow these instructions in reverse order.
