## INTRODUCTION

The battery is the powerhouse of the cell phone. If your battery fails, it is essential to get a new one and replace the failed one. If you are experiencing difficulty with your display screen, try removing and reinserting your current battery.

## Step 1 — Battery

- Insert fingernail into the slot on the back left side of the phone and pry open.

## Step 2

- Remove faulty battery.
- ❗ The battery is missing from our device, however, it would be located in the section in-between the fingers.

To reassemble your device, follow the instructions in reverse order.
