

# LG Thrill 4G Speaker Replacement

This guide will show you how to remove and replace the speaker for the LG Thrill 4G.

Written By: Kenny Richmond

---

## INTRODUCTION

Make sure your phone is turned off.

### TOOLS:

- [Phillips #00 Screwdriver](#) (1)
  - [iFixit Opening Tools](#) (1)
-

## Step 1 — Back Cover Removal

- Use your fingernail or a plastic opening tool to remove the back cover of the phone.
  - ⓘ There is a notch located at the bottom of the phone that can be used for opening leverage.

## Step 2 — Battery Removal

- i** The battery is located at the bottom half of the phone with the LG logo on it.
- i** There is a semi-circular notch at the bottom edge of the battery with the silver screw in it.
  - Place a finger in the notch and push up against the battery to pop it out.

## Step 3 — Screw Removal

- Remove the three screws from the bottom of the phone. These three screws are located on the speaker itself:
  - Two 5.5 mm Phillips #00 screws
  - One 4 mm Phillips #00 screw

## Step 4 — Speaker Removal

- There is a notch located at the bottom of the speaker. Insert a fingernail in to the notch and pull up.

To reassemble your device, follow these instructions in reverse order.
