

LG Tone Pro HBS-770 Speaker Replacement

Speaker replacement for LG Tone Pro HBS-770 model.

Written By: Faizan Naveed

 **TOOLS:**

- [Tweezers \(1\)](#)
- [iFixit Opening Picks set of 6 \(1\)](#)
- [Pry Bar \(1\)](#)
- [Phillips #00 Screwdriver \(1\)](#)
- [Soldering Iron \(1\)](#)

Step 1 — Locate Hidden Screw

- There are 2 hidden screws that need to be removed.
- Remove the rubber covering that covers the hidden screws.

Step 2 — Remove Hidden Screws

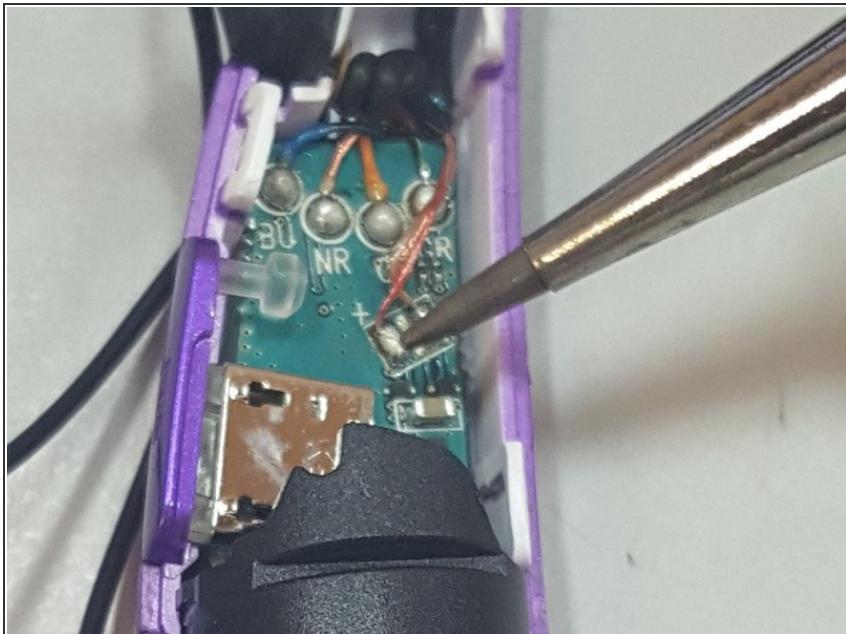

- Remove both of the hidden screws using a Philips #00 screwdriver.

Step 3 — Pry Open Housing

- Use a guitar pick or any pry opening tool to open the housing.

Step 4 — Remove Speaker

- Desolder speaker connection from board using a solder iron.

To reassemble your device, follow these instructions in reverse order.
