

LG Treasure Loudspeaker Replacement

This guide will show you how to replace the Loudspeaker on your LG Treasure phone.

Written By: david amirahmadi

INTRODUCTION

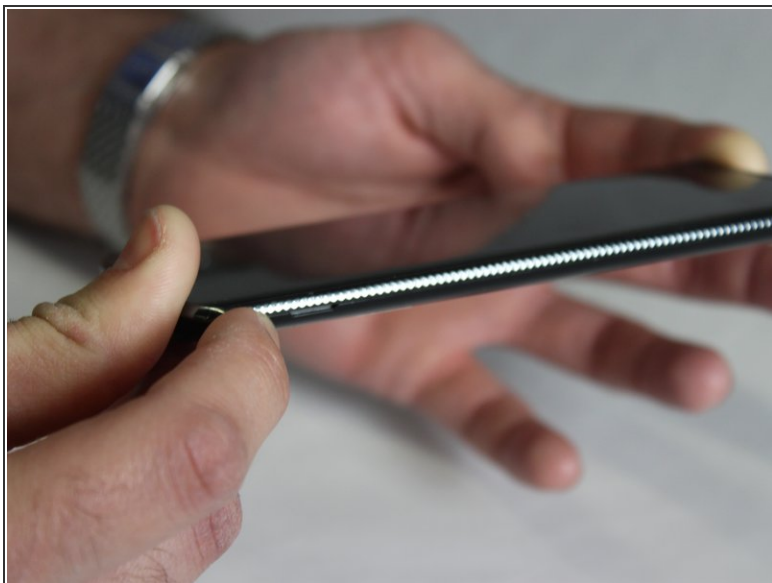

This guide will replace the loudspeaker which is located on the back of the phone digitizer.

TOOLS:

- [Tweezers](#) (1)
 - [Phillips #000 Screwdriver](#) (1)
-

Step 1 — Battery

- ❗ Make sure the LG Treasure is turned off.
- Pull off the back cover from the phone using the groove on the bottom right side.

Step 2

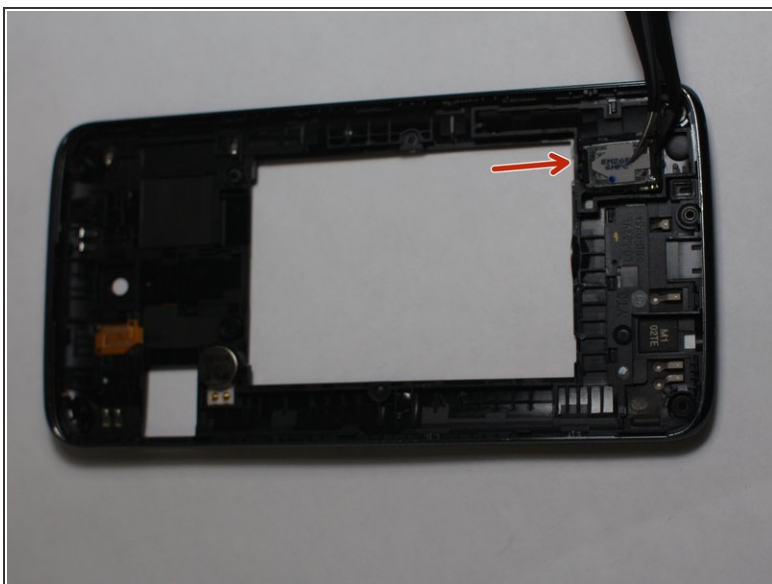

- Remove the battery from the phone by lifting up on the bottom end of the battery.

Step 3 — Loudspeaker

- Remove all 9 of the 3mm Phillips #000 screws from the digitizer.
- Remove the digitizer like you did the back cover by working your way around the edge peeling it up.

Step 4

- Use the tweezers to lift the loudspeaker out of place.

To reassemble your device, follow these instructions in reverse order.
