

# LG VX4400 Antenna Replacement

Written By: Nico Chiarito

## INTRODUCTION

This guide will show you how to replace the antenna.

## Step 1 — Battery

- Press the light grey button in the top-center on the back of the phone.
- While pressing, slide the battery and cover up.

## Step 2 — Antenna

- Unscrew the antenna by grasping the base and twisting counterclockwise.

**⚠** The antenna may separate from a black sleeve during removal. You may need to use tweezers to remove the sleeve. Remove both the antenna and the sleeve and set aside.
