INTRODUCTION

Batteries can become damaged or corrupted by constant usage. If your battery refuses to hold a charge or will not charge, follow this guide to take out and replace the battery.

www.iFixit.com

Step 1 — Battery

- Remove the battery cover by placing your thumb on the small ridge near the top of the phone back and push downward, exposing the battery.

- (i) Our device did not come with a battery cover so it is not shown here.

- Remove the battery using your finger to pry it out of the battery housing.

To reassemble your device, follow these instructions in reverse order.
