

LG Voyager Screen Replacement

This guide will show how to remove the front screen of the phone.

Written By: Michelle

 **TOOLS:**

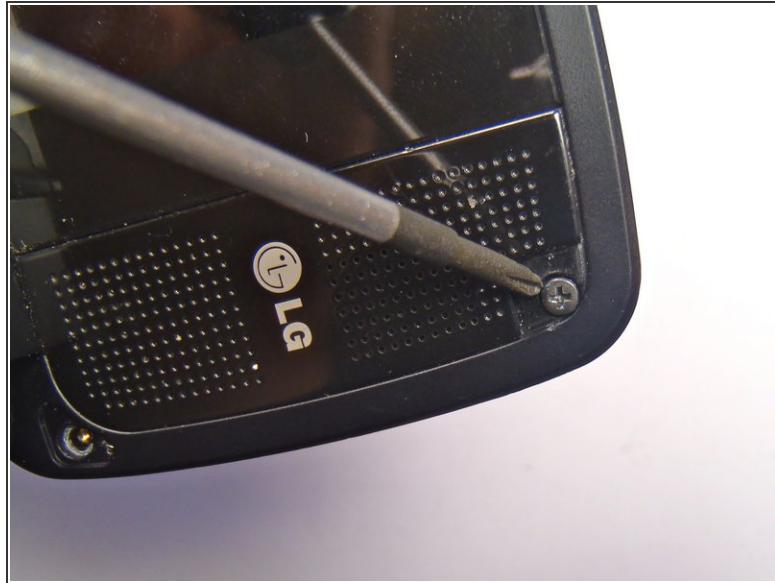

- [Phillips #00 Screwdriver](#) (1)
- [iFixit Opening Tools](#) (1)

Step 1 — Screen

- Use a plastic opening tool to pry up and remove the screw covers located in the corners by the speakers

Step 2

- Unscrew the four screws under the covers with a #00 screw driver.

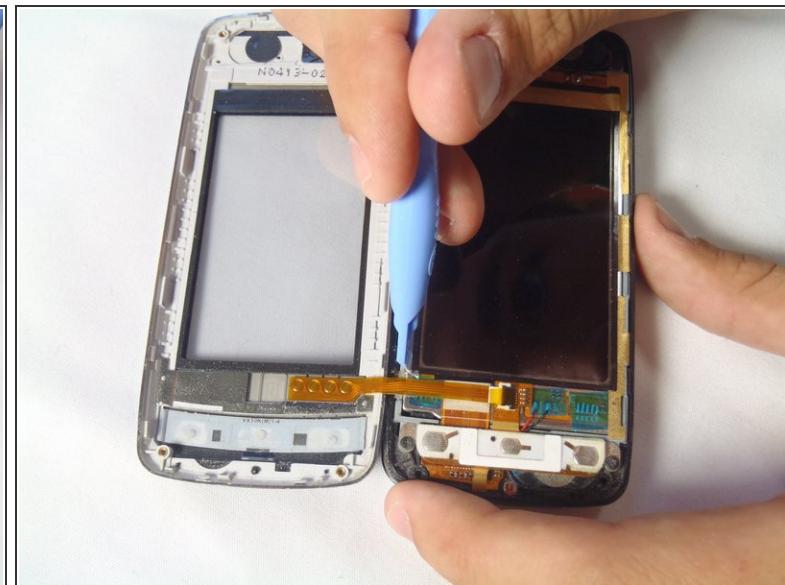

Step 3

- Carefully pry open the front of the phone.

⚠ When opening the phone be careful of the ribbon holding the top to the rest of the phone.

Step 4

- Carefully pry off the screen.

To reassemble your device, follow these instructions in reverse order.
