

# Le Pavé Parisien V1: Replacing the loudspeaker

Follow this tutorial in order to easily replace the loudspeaker in your Pavé Parisien.

Written By: Le Pavé Parisien

## INTRODUCTION

Follow this tutorial in order to easily replace the loudspeaker in your Pave Parisien.

## Step 1 — Remove the grill

- Remove the speaker protective grill by first lifting one corner.

## Step 2 — Unscrew the loudspeaker

- Remove the 4 speaker retaining screws using an M4 allen wrench.

## Step 3 — Disconnecting the loudspeaker

- Lift the speaker out of the concrete shell in order to access the connections.
- To disconnect the speaker, pull each of the cables, gripping the connector and easing it from side to side.
- You only have to connect the replacement speaker and follow the instructions in reverse in order to reassemble your Pavé Parisien.

## Step 4 — Replacing the speaker in the shell

- Connect the speaker as in step 3. Take care to ensure the connectors are on the side where there is a notch in the concrete.

## Step 5 — Finish

- You only have to replace the screws and the protective grill and your Pavé Parisien is reassembled!

Follow these instruction in reverse order to reassemble your device.
