Step 3

- While holding the battery, use your other hand to push the left clip to the left and pull the battery out.
Step 4 — Back Panel

- (i) The screws are captive to the back panel so they are not to be removed.
- Using the Phillips #00 Screwdriver, Loosen the five 5.4 mm screws around the back panel from the laptop.
Step 5

- Using a plastic opening tool, pry the back panel from the laptop.

Step 6

- Pull the panel outward from the rest of the laptop. The inside of the laptop will be exposed. From here you can access the CD-ROM drive, hard drive, and Keyboard.
Step 7 — Wi-Fi Card

- Using the plastic opening tool, detach both black and grey cables from the Wi-Fi card.
