Step 3 — Screen

- Use the pointed end of a spudger to remove the two screw covers from the bottom corners of the display.

Step 4

- Remove the two 2mm Phillips #00 screws found at the bottom corners of the display.

Step 5

- Separate the front bezel from the display using the plastic opening tool.
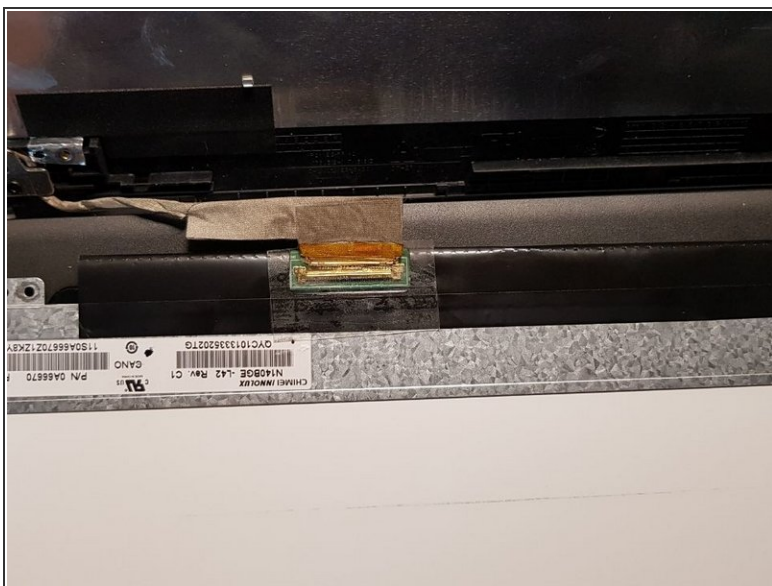

Step 6

- Remove the four 2mm Phillips #00 screws from the screen.

Step 7

- Lay the screen flat on top of the keyboard.

Step 8

- Peel up the adhesive tape to unlatch the metal retaining bracket on the display cable.

To reassemble your device, follow these instructions in reverse order.
