INTRODUCTION

This guide will instruct the user how to remove the bottom access panel of their laptop for replacement, or to allow access to other parts for repair or replacement.
🔧 TOOLS:

- Phillips #0 Screwdriver (1)

This document was generated on 2019-09-17 10:29:54 AM (MST).

Step 1 — Bottom Access Panel

- Locate and remove the 3 screws securing the outer cover of the laptop.

Step 2

- slide cover away from hinges and lift panel off.

To reassemble your device, follow these instructions in reverse order.
