Lenovo G50-80 80E5 CD Drive Replacement

This guide will instruct users how to disassemble the laptop and remove the CD drive for repair or replacement.
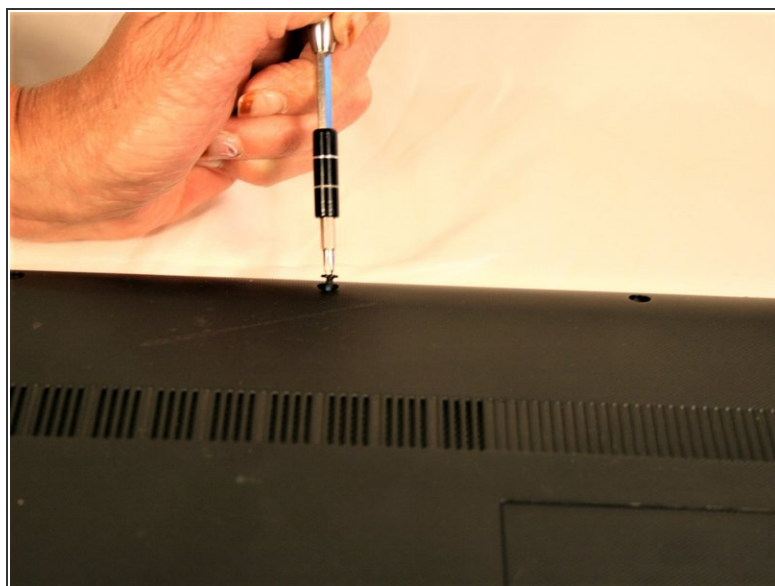

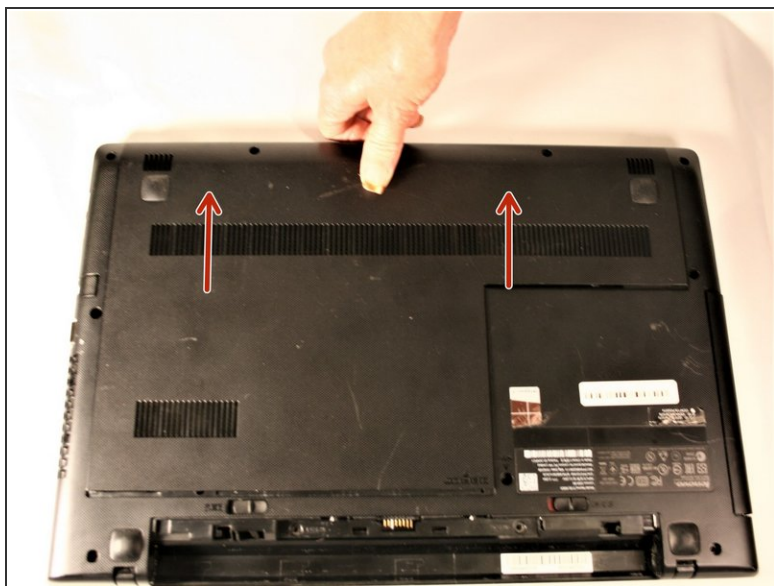

Written By: Brett Bousquet

TOOLS:

- Phillips #00 Screwdriver (1)

Step 1 — Bottom Access Panel

- Locate and remove the 3 screws securing the outer cover of the laptop.
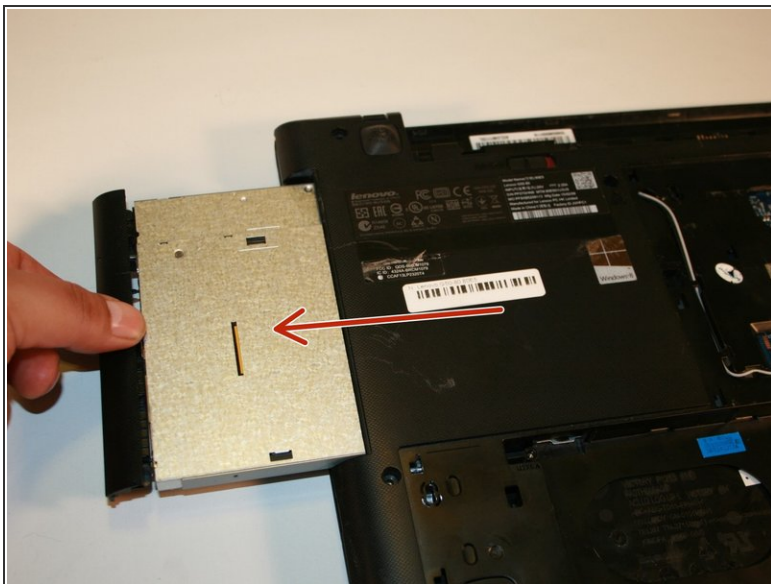

Step 2

- slide cover away from hinges and lift panel off.

Step 3 — CD Drive

- Locate the CD drive.

- Remove the single #00 Phillips 5.5 mm screw on the centermost side of the drive.

Step 4

- Move the drive towards the outside of the laptop to remove the connector.

- Pull the drive out of the laptop.
