Step 1 — Hard Drive/ Solid State Drive

- Remove the eight 4mm PH00 screws.
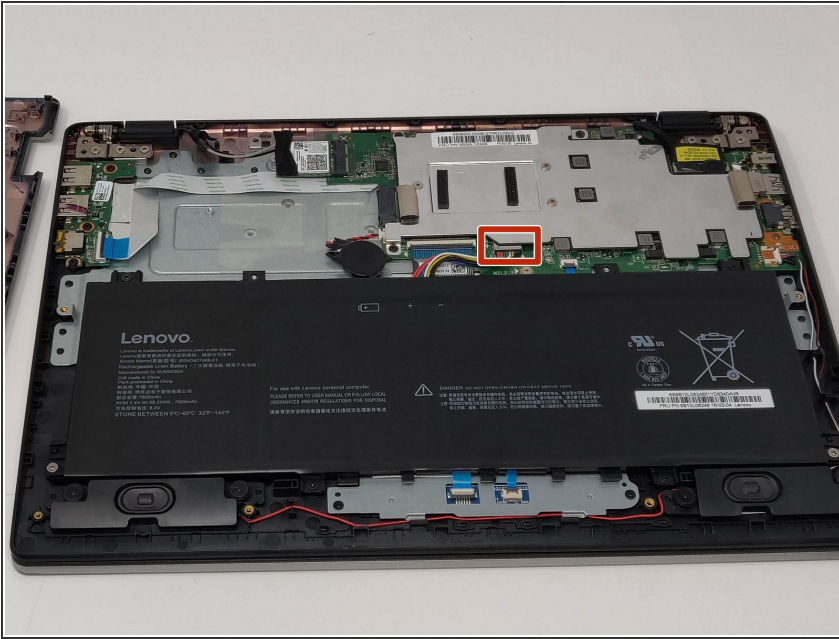

- Remove the four 2mm PH00 screws.

Step 2

- Use the nylon spudger to loosen the back cover from the back of the device.

⚠️ You may hear a bit of a snapping sound, but this is normal.

Step 3

- For safety reasons, disconnect the wires connecting the battery to the motherboard with a nylon spudger.

Step 4

- Remove the solid state drive.

To reassemble your device, follow these instructions in reverse order.
