

# Lenovo IdeaPad 310 Touch-15ISK Screen Replacement

This guide will show you how to replace the screen of your Lenovo IdeaPad 310 Touch-15ISK.

Written By: Amanda Quinn

## TOOLS:

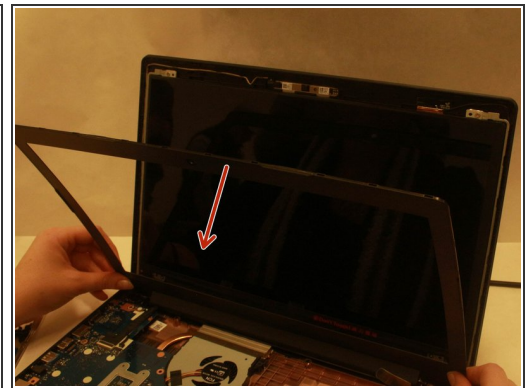

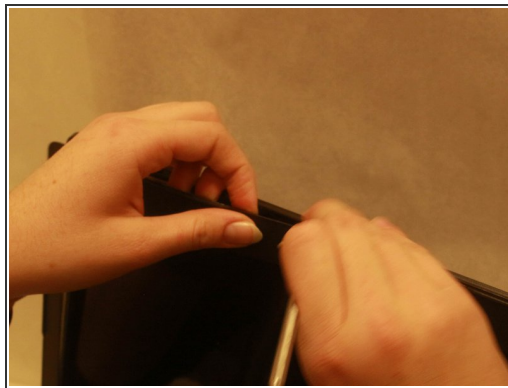

- [Phillips #0 Screwdriver](#) (1)
  - [iFixit Opening Tools](#) (1)
-

## Step 1 — Screen

- ⚠️ Unplug the power cable from the wall before performing replacement to avoid electrocution.
- Open Laptop between 90 to 130 degrees.

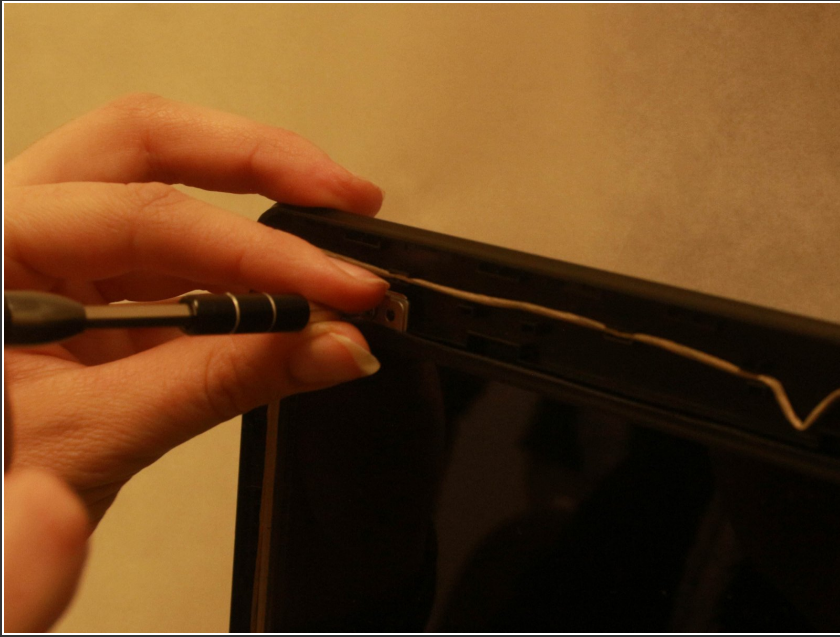

## Step 2

- Use the blue plastic spudger to pry the screen frame away from the screen.
- Use your fingers to finish removing the screen frame.
- Gently pull the screen frame out by tilting it forward and pulling up until it is removed.

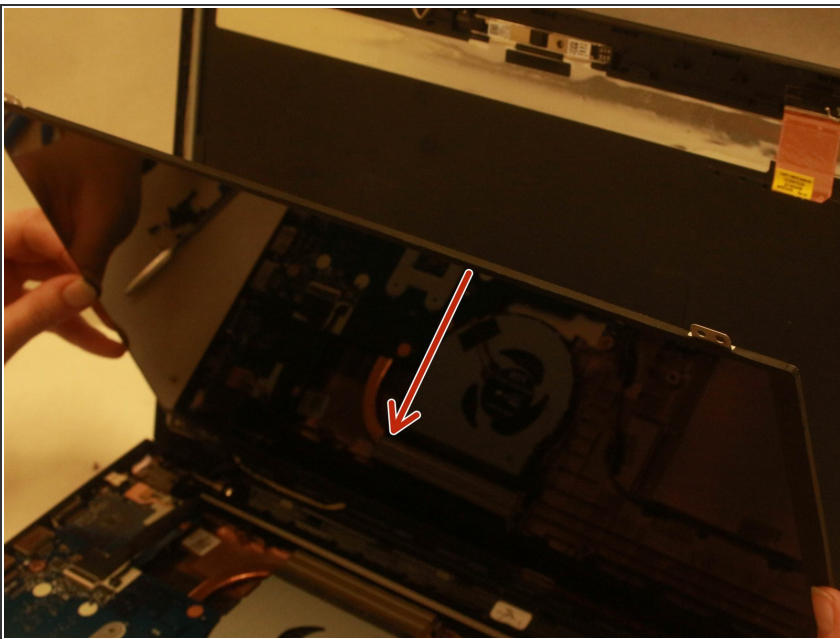

### Step 3

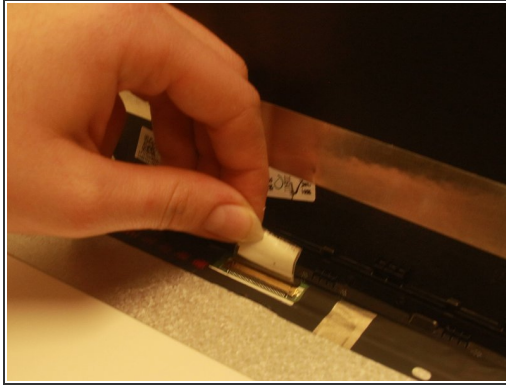

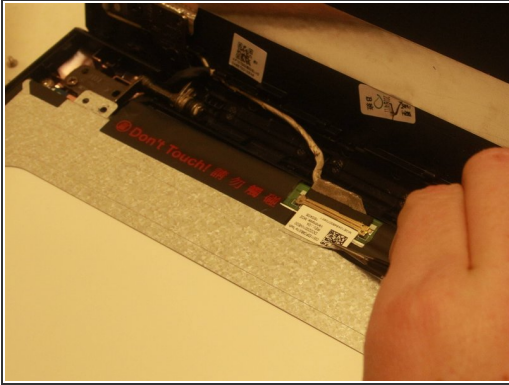

- Remove the 4 Phillips #0 screws at the 4 corners of the screen.

### Step 4

- Slowly lean screen forward away from the outside cover.

## Step 5

- Use needle nose tweezers to carefully detach the sticker from the bottom of the screen that is holding the webcam wires in place.
- Pull the screen out.

To reassemble your device, follow these instructions in reverse order.
