INTRODUCTION

Almost everything that may need replacing in your Lenovo IdeaPad Flex 5-1570 can be found underneath the back panel. A damaged back panel is problematic on its own but can also lead to other more serious problems if not replaced. Removing the back panel is a little tricky, however following the steps in this guide should allow for a smooth removal.
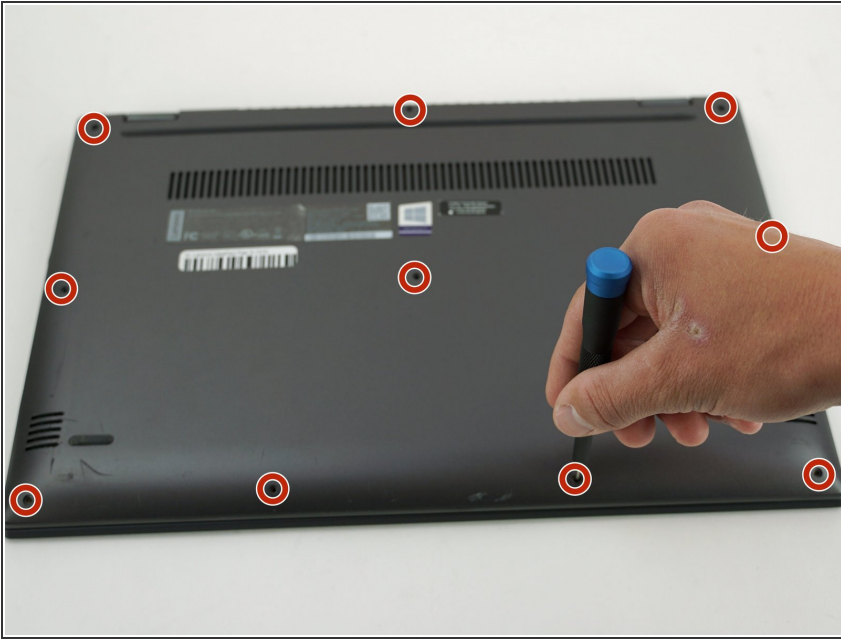

TOOLS:

- Phillips #00 Screwdriver (1)
- iFixit Opening Tools (1)

PARTS:

- Lenovo Flex 5-1470 and Flex 5-1570 Lower Case (1)

Step 1 — Back Panel

- Remove the ten 5 mm Phillips #00 screws that are holding the back panel on.

Step 2

- Gently use the plastic opening tool around the edges of the laptop to pry up the back panel.

To reassemble your device, follow these instructions in reverse order.
