🔧 TOOLS:

- Phillips #1 Screwdriver (1)
- Spudger (1)

Step 1 — Battery

- Slide out both locks for the battery, located on the back of the device.

Step 2

- Remove the battery.

Step 3 — Keyboard

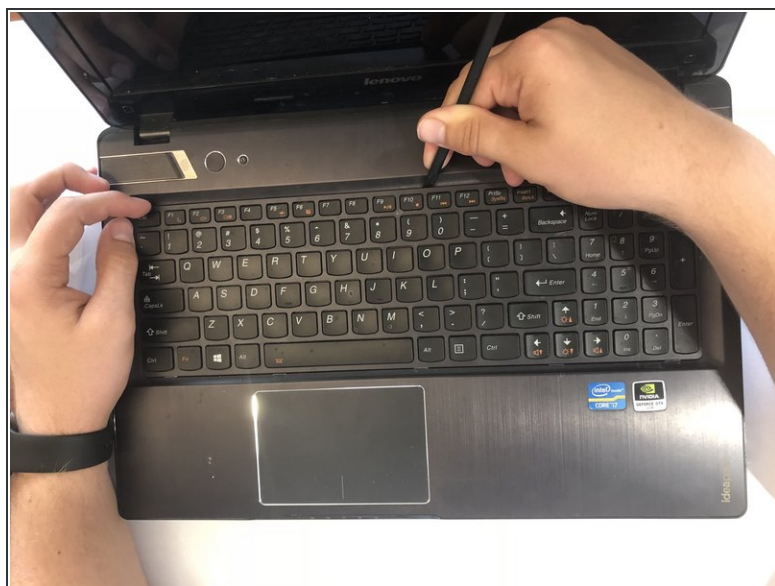

- Unscrew the 2 screws on the bottom of the device.

- Slide the back panel out.

Step 4

- Unscrew the 3 "keyboard" detected screws.

This document was generated on 2019-09-28 01:20:29 PM (MST).

Step 5

- Flip the laptop over and open up.

- Then pry up the whole keyboard using the spudger.

⚠ Make sure to use a plastic spudger. You could damage the device using anything else.

⚠ Make sure not to take the frame that goes around the keys off. This part is not removable.

To reassemble your device, follow these instructions in reverse order.
