Step 1 — Digital Board

- Look at the back of the tablet and locate the speakers on top of the rear cover.

- There is a smaller plastic cover that runs across the top of the device.

- Wedge the blue opening tool, under the middle of the cover as shown, then push up and the cover will pop off.
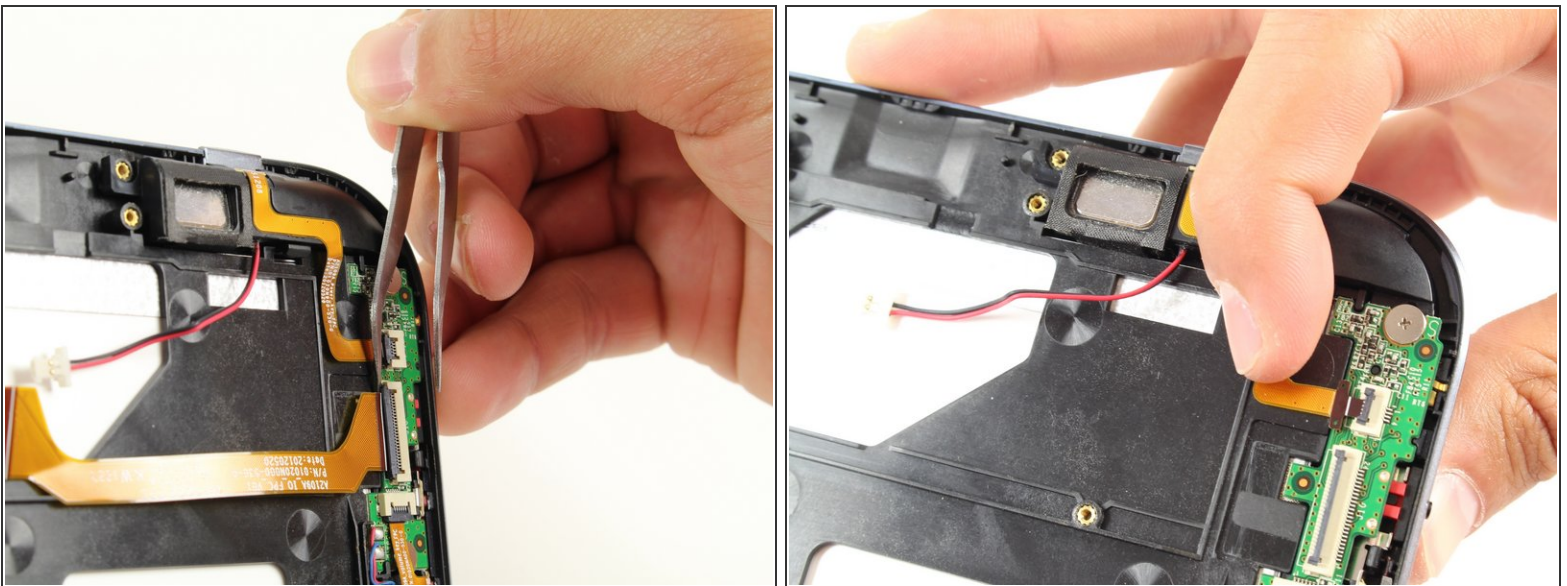

Step 2

- Remove the following two screws:
  - M3.0 x 3.0 mm #00 phillips screws (black)
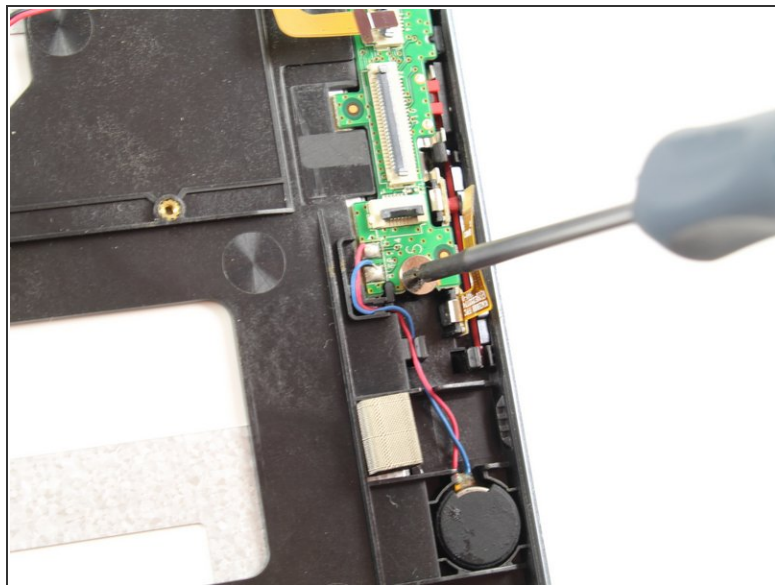

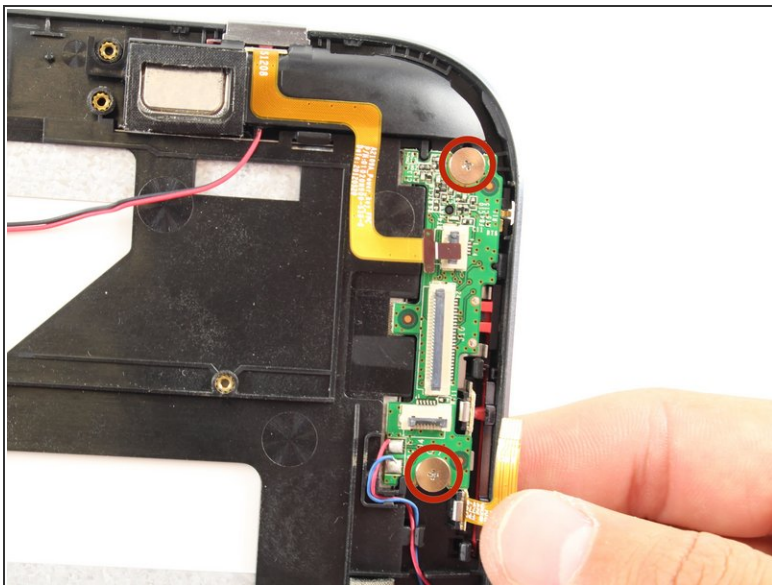

|

Step 3

- Once it is unscrewed, remove the rear cover
  - This may take a little force to get off but with enough force it should pop right off
- Use a blue opening tool to pry it open
  - Slide the tool to one corner then grab another tool and slide it to the opposite corner
- Pull the cover up and it will come off

Step 4

- Use the tweezer tool to flip up the three small plastic locks attached to the digital board.
- Then, slide newly exposed ribbons out.

Step 5

- Remove the following two screws:
  - M5.3 x 1.75 mm #00 phillips screws (silver)

Step 6

- Once it is unscrewed, use the tweezer tool to pull the digital board straight out.

To reassemble your device, follow these instructions in reverse order.
