Lenovo Ideapad Yoga 2 11 Back Panel Replacement

This guide will walk you through how to locate, remove, and replace the back panel of your Lenovo Ideapad Yoga 2 11".

Written By: Andria Chen

INTRODUCTION

Removal of the back panel is crucial for repairing the hardware in the computer or the back panel itself due to dents/other damages. This guide will walk you through the process of how to remove and/or replace the back panel of your device.
TOOLS:

- T5 Torx Screwdriver (1)

www.iFixit.com

Step 1 — Back Panel

- Begin by turning your closed laptop so that you are looking at the bottom panel.

Step 2

- Locate the 10 screws (6mm) around the border of the panel.

- Using the Torx T5 Screwdriver, remove the screws.

Step 3

- Now that the screws are removed, gently lift the back panel upwards to detach it from the rest of your laptop.

To reassemble your device, follow these instructions in reverse order.
