Step 1 — Back Cover
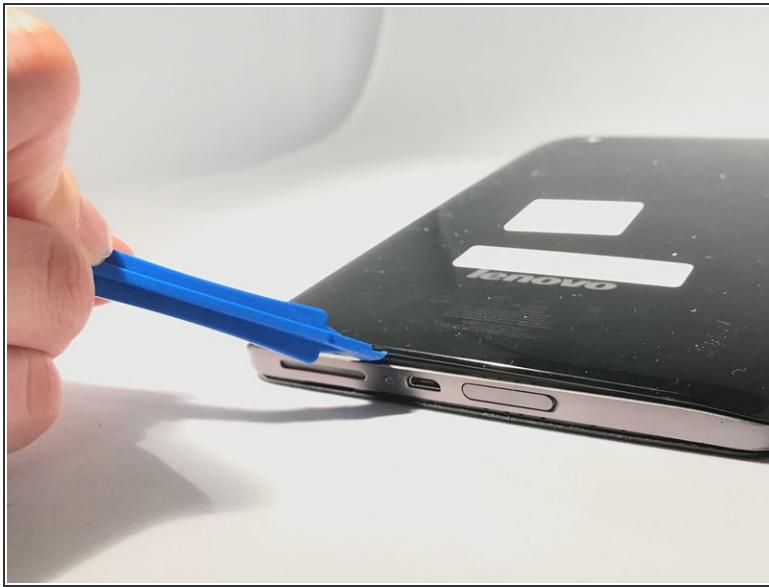

- Insert a plastic opener in-between the black back panel and the silver body of the tablet.

- Use the plastic opener to pry the back panel off by moving the plastic opener around the outside edge of the device.

Step 2
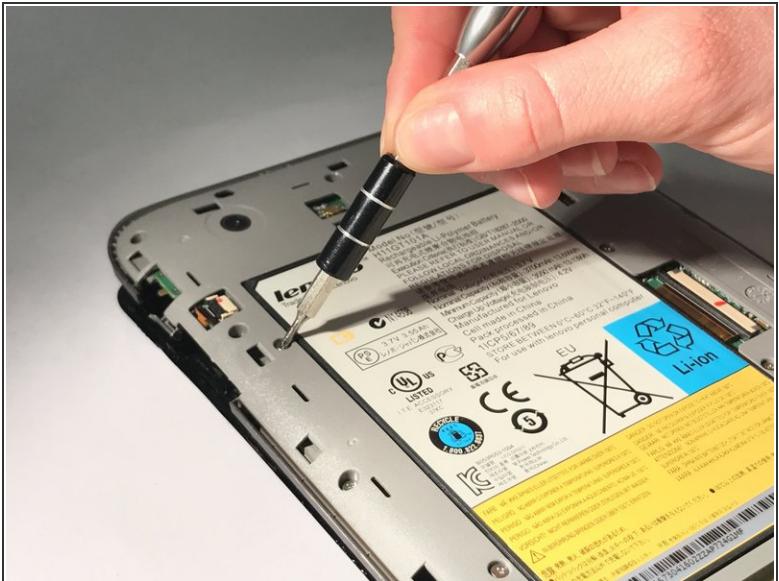

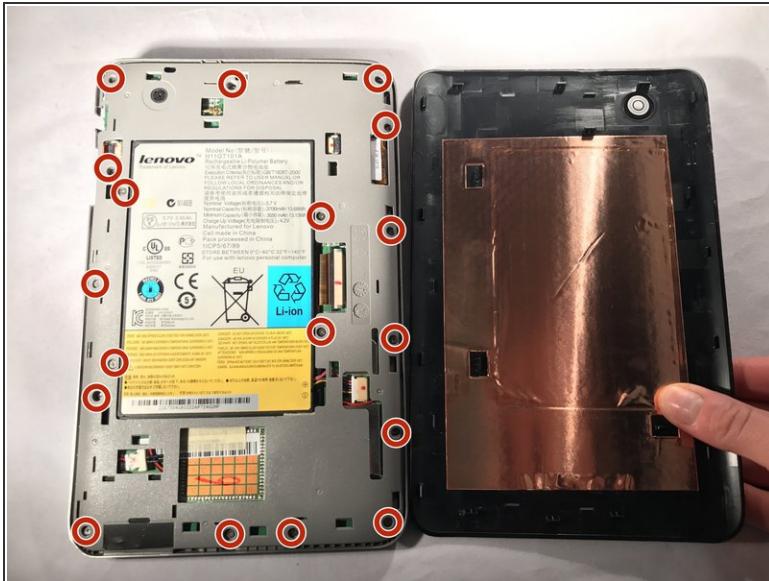

- Use a Phillips #000 screwdriver to remove the seventeen 4mm screws.

Step 3

- Lift up and remove the interior casing to expose the inner components.

- ⓘ Do not be alarmed if the volume button and lock button fall off when removing the interior casing.

To reassemble your device, follow these instructions in reverse order.
