# Lenovo ThinkPad S431 Screen Assembly Replacement

How to remove the damaged screen from the Lenovo ThinkPad S431.

Written By: Mohammed AlManai

## INTRODUCTION

This guide will show you the steps to safely remove the damaged screen from your laptop. Once the screen is broken, you cannot receive accurate information from your laptop.

### TOOLS:

- Flathead 3 mm Screwdriver (1)
- Phillips #1 Screwdriver (1)
- iFixit Opening Tools (1)

### PARTS:

- 14" PC Laptop LCD N140BGE-E43 (1)

## Step 1 — Screen Assembly

- Place an opening tool under the screen cover, and pop it off.

- ⚠ Using a metal object to open fragile parts of your laptop could cause damage! Instead use the opening tool listed in the tools section above.

## Step 2

- Take off the 6 screws using the Philips head #1.

## Step 3

- Lift the screen out from the top.

## Step 4

- Remove the connector located at the bottom of the back of the screen.

To reassemble your device, follow these instructions in reverse order.
