

Lenovo ThinkPad T400s RAM Cards Replacement

Replacing the memory card for a Lenovo ThinkPad T400s.

Written By: Morgan Montalvo

INTRODUCTION

In this guide, we will show you how to replace your memory cards.

TOOLS:

- [Phillips #0 Screwdriver](#) (1)
- [iFixit Opening Tools](#) (2)

Small

Step 1 — RAM Cards

- Unscrew the Phillips #0-6mm screw on the back panel.
- Lift up the back cover to the memory cards.

Step 2

- Use two plastic opening tools to lightly pull the two semi-circle tabs apart.

Step 3

- Pull out the RAM cards from their slots and replace.

To reassemble your device, follow these instructions in reverse order.
