

# Lenovo ThinkPad T500 Screen Replacement

This guide will teach you how to replace the screen on your ThinkPad T500.

Written By: Brian Egana

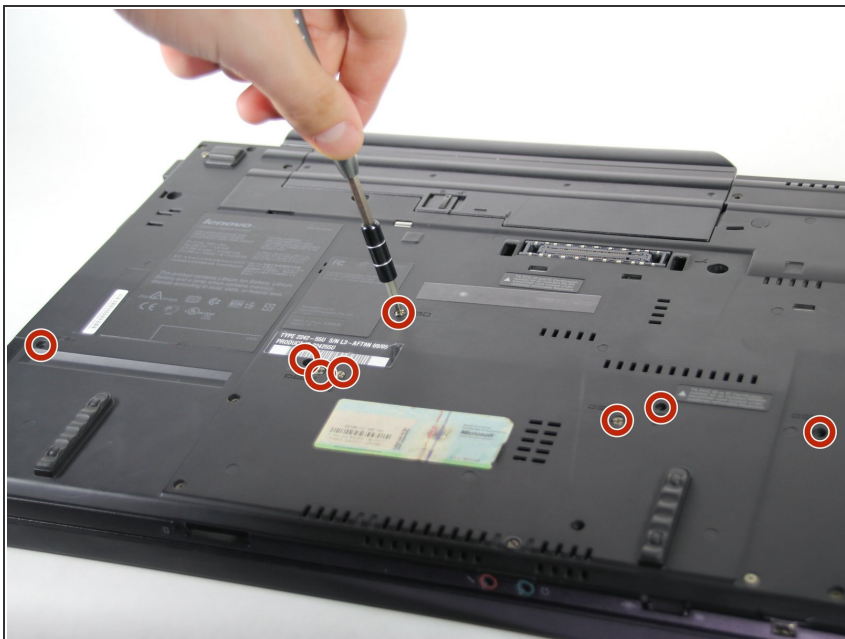

## TOOLS:

- [Phillips #0 Screwdriver](#) (1)
  - [Spudger](#) (1)
-

## Step 1 — Screen

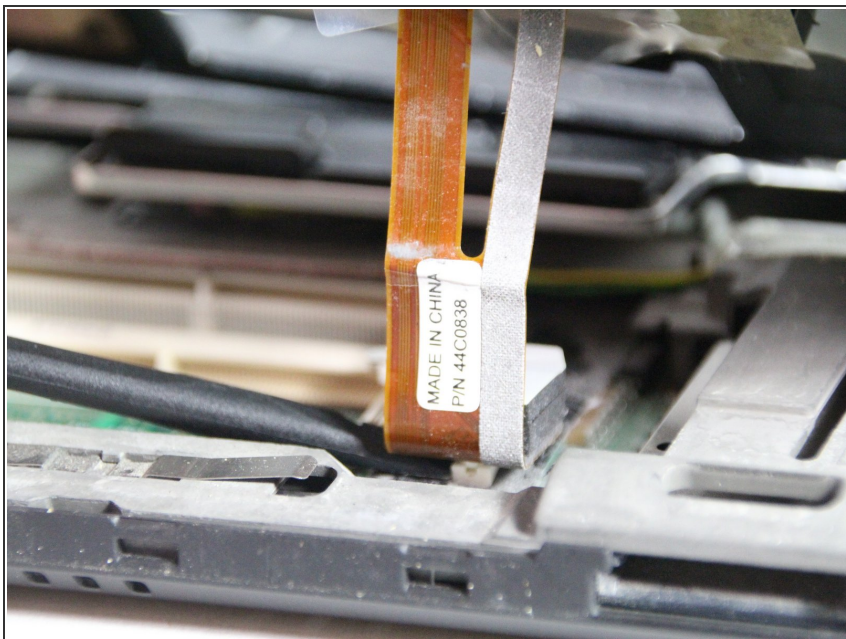

- Remove the eight 14mm screws using the Phillips #0 Screwdriver.

## Step 2

- Lift the palm rest panel up.
- ⚠ Be sure to lift the panel **slowly**; there is a ribbon cable attached to the bottom.

## Step 3

- Use the spudger to disconnect the ribbon cable.

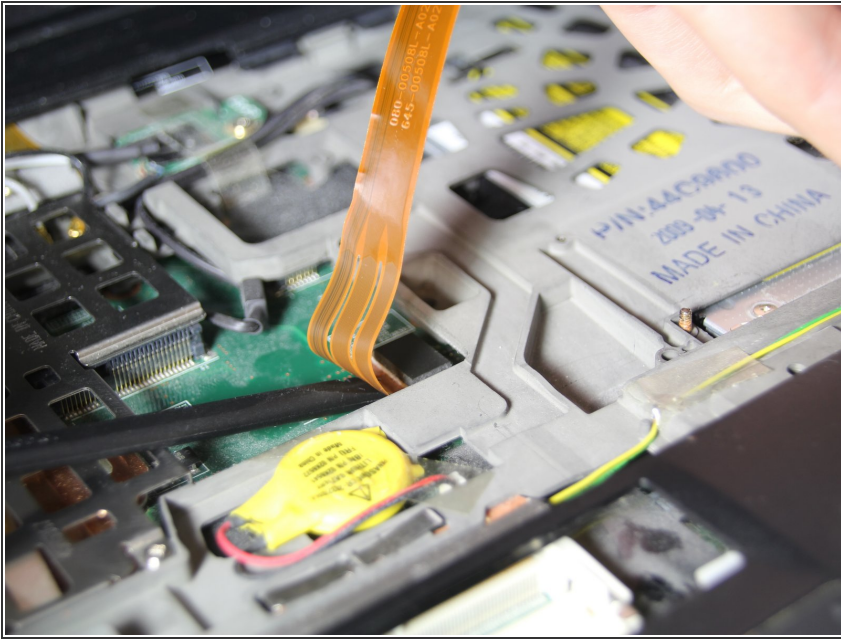

## Step 4

- With the panel disconnected, lift the keyboard.
- ⚠ As with the panel, lift the keyboard **slowly**; there is a ribbon cable attached to the bottom.

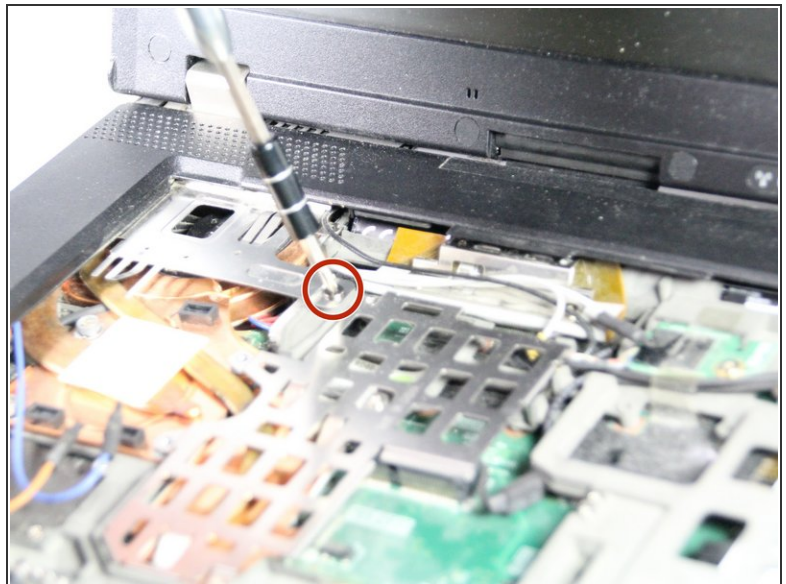

## Step 5

- Disconnect the ribbon cable with the spudger.

## Step 6

- Remove the keyboard and the panel.
- Using the Phillips #0 Screwdriver, remove the three 3 mm screws that are at the bottom sides and near the top-left of the speaker cover.
- Disconnect the orange and blue cables next to the left side of the speaker cover.

## Step 7

- Remove the speaker cover.

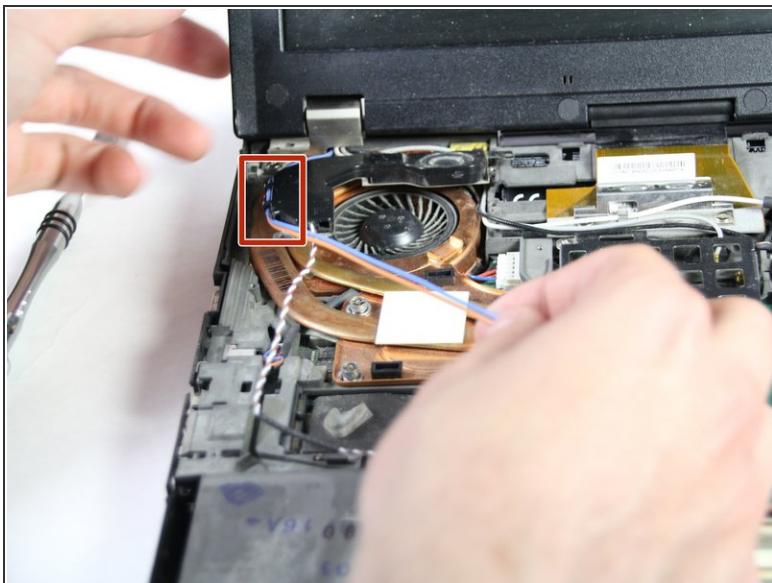

## Step 8

- Remove the two 3mm screws on the left speaker with the Phillips #0 Screwdriver.

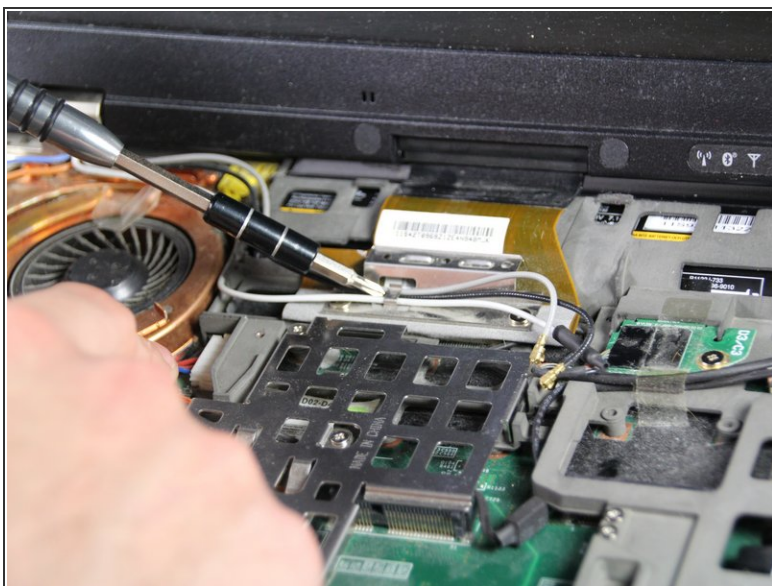

## Step 9

- Detach the blue and orange cables from the left speaker's clamps.

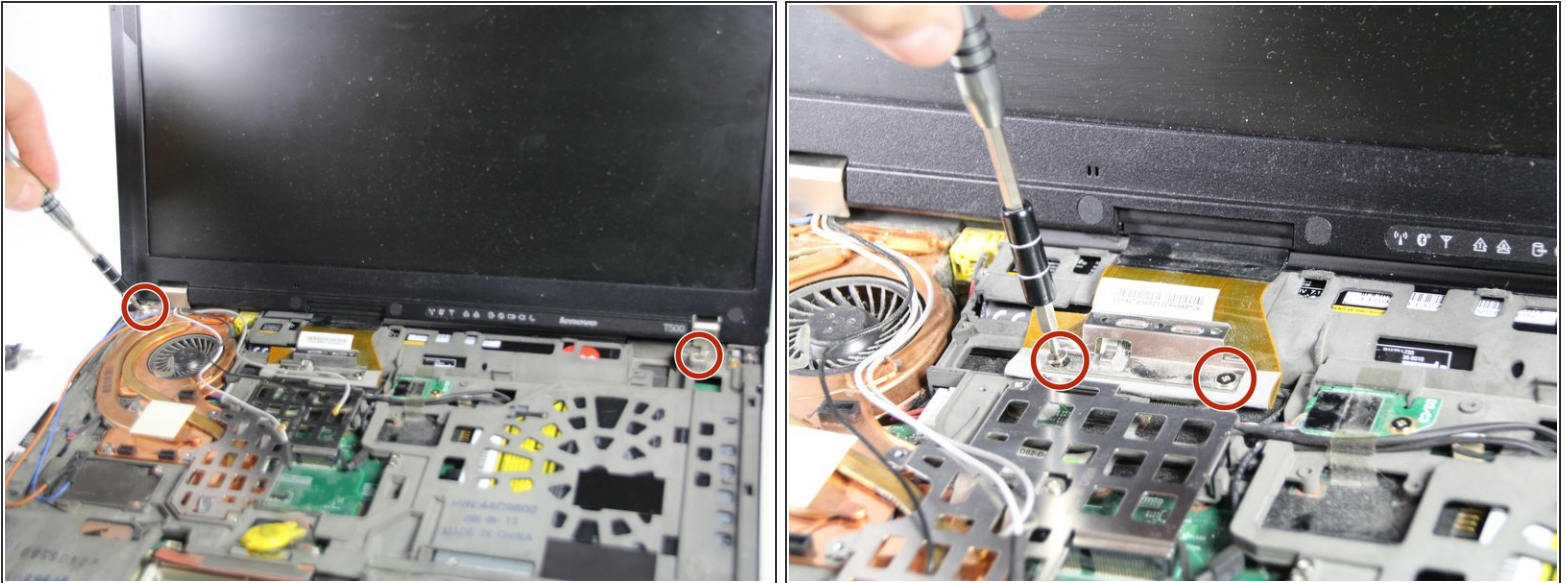

## Step 10

- Using the Phillips #0 Screwdriver, lift the metal fastener up and remove the black and white wires.

## Step 11

- Remove the two 3mm screws next to the lid hinges, as well as the two 3mm screws on the lid's ribbon cable.

## Step 12

- Use the spudger to detach the screen's ribbon cable.

## Step 13

- Remove the screen.

To reassemble your device, follow these instructions in reverse order.
