

Lenovo ThinkPad X61 Screen Replacement

How to replace the screen on a Lenovo ThinkPad X61.

Written By: Ryan McCarthy

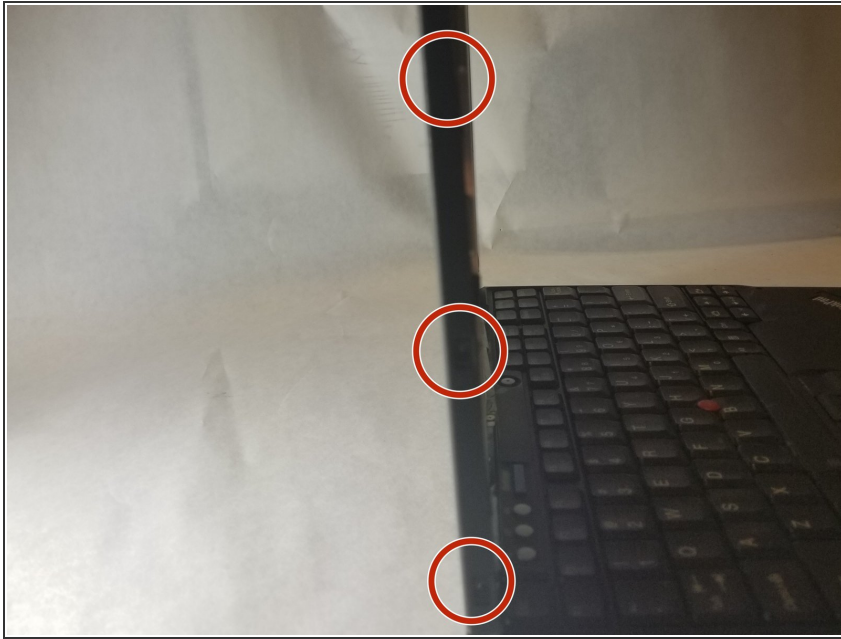

TOOLS:

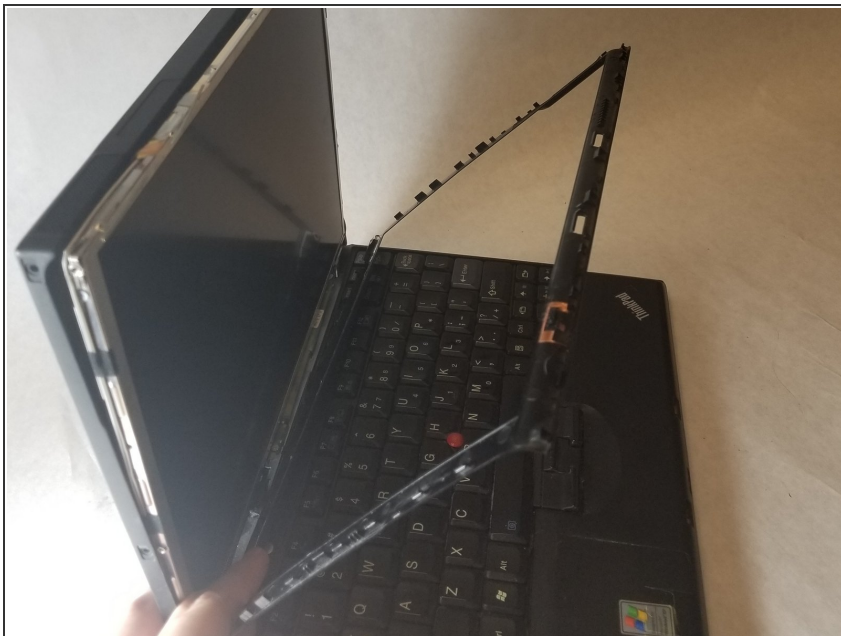

- [Essential Electronics Toolkit \(1\)](#)
-

Step 1 — Screen

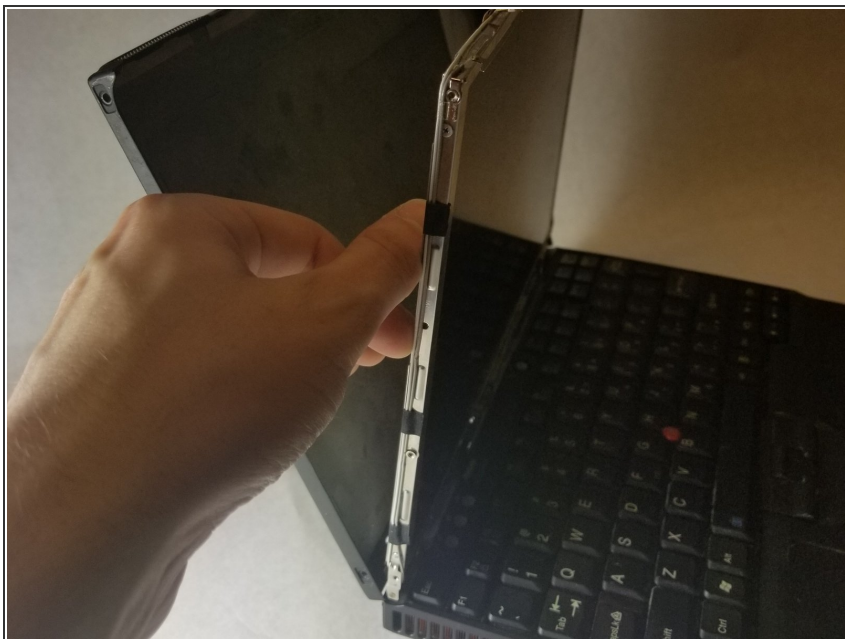

- Turn the device to the side as shown in the image. Locate the following 1.5 mm Philip head screws as marked by the red circles in the image, and unscrew them.
- Complete this exact procedure for the other side of the device.

Step 2

- Now that all the screws on the sides of the device are loosened, the outer plastic coating of the screen has also become loose.
- Use a tool to pull apart this loosened plastic coating as shown in the image.

Step 3

- With the outer plastic coating now off, the inner screen is the only thing left to pull out. is the actual screen.
- With the same tool used in the previous step, loosen the screen from all sides and simply pull it out as shown in the image.
- It is at this point that you can replace the device with a new screen.

To reassemble your device, follow these instructions in reverse order.
